**Is Seconds connected to Scott Pilgrim?** "As a standalone novel," Travis writes, "Seconds may not have the scope of the Scott Pilgrim series, but it's a perfectly formed piece. **Is Scott Pilgrim dating Ramona?** Ramona takes Scott back to the past with her Rollerblades made out of an old DeLorean, catching us up to the end of the last episode. Seeing the immaturity of his future self makes Scott act like an adult, and he apologizes to Knives for not breaking up with her once he started dating Ramona.

**Who is Scott's girlfriend Scott Pilgrim?** Ramona Victoria "Rammy" Flowers is an American expatriate from New York, a "ninja delivery girl" for Amazon and Scott's main love interest. Her age is unknown until the end of the 4th volume, where she reveals that she is 24 years old.

After a life spent bouncing from one foster home to the next, Allison is determined to keep others at arm's length. Adopted at sixteen, she knows better than to believe in the permanence of anything.

### **Who wrote 180 seconds?**

**Why do Scott and Ramona get divorced?** He wanted to try and stop his younger self from – yep, you guessed it – dating Ramona because the duo separate (and, according to Slightly Older Scott, get divorced) after they hit a sticky patch in their relationship. Unfortunately for Slightly Older Scott, his younger self doesn't take any notice.

**Why couldn't Scott and Ramona kiss?** Following his return to the past with help from Future Ramona in "2 Scott 2 Pilgrim" after being sent to the future by his older self, Scott reunites with Ramona and they both try to kiss each other, but are prevented due to the A-K Field.

**Does Scott Pilgrim date a minor?** And Scott is dating a 17-year-old high school girl named Knives Chau (Ellen Wong). Scott's life is disrupted when he meets a rollerblading, magenta-haired girl named Ramona Flowers (Mary Elizabeth Winstead). Scott starts dating Ramona.

**Why does Ramona's head glow?** Due to her power over Subspace travel thanks to the Glow, her head begins to glow when she is upset or jealous, though she herself is unaware of this until Kim Pine brings attention to it in Volume 5.

**What race is Matthew Patel?** Matthew Patel is the first of Ramona Flowers' Evil Ex Boyfriends. He is of Indian descent and was, at his time of dating Ramona, somewhat overweight.

**Who does Kim Pine end up with?** Her ending in the game takes off the scene from in Volume 4, where she and Knives become a couple together much to the shock of Scott and Stephen. In Scott's ending, she along with Knives and Envy all date Scott at the same time after Ramona leaves him.

**What age is the seconds graphic novel for?** Irene Carracher Kistler It's definitely for older teens. I consider it mature YA because of the sexual relationships in the book. Carling Bock There are scenes that may suggest sex and there is a normal amount of language and profanity. Don't let it discourage you, it's a great book.

**Is it worth reading spare?** Above all, "Spare" is worth reading for its potential historical import, which is likely to resonate, if not to the crack of doom, then well into the reign of King Charles III, and even into that of his successor.
