PHILOS

this stone has seven eyes, representing God's all-seeing nature and his perfect knowledge. It also has multiple facets, symbolizing the various aspects of Christ's character and ministry.

The Two Witnesses

The Two Witnesses are two specific individuals who appear during the end times to proclaim God's truth and confront the Antichrist. They are described in Revelation 11 as prophesying for 1,260 days, clothed in sackcloth and performing miraculous signs. Their mission is to bear witness to the truth about Jesus and expose the lies of Satan.

Their Identity

The identity of the Two Witnesses has been a subject of much debate. Some believe they are literal individuals, while others propose they are symbolic representations of the church, the Old and New Testaments, or even Moses and Elijah. Ultimately, their true nature remains a mystery until their appearance.

Apostasy and Suffering

During the time of the Two Witnesses, the world will experience a period of intense apostasy and persecution. The Antichrist will seek to deceive and control the nations, leading many astray. The Two Witnesses will face opposition and persecution, but they will remain steadfast in their witness until their mission is fulfilled.

Epilogue

The destiny of the Two Witnesses is ultimately intertwined with the return of the Messiah. After completing their mission, they will be killed by the Antichrist and their bodies left in the streets. However, God will raise them up again, their voices silenced, and the Antichrist's reign of terror will come to an end. The Stone of Israel, the symbol of the Messiah's power and sovereignty, will prevail, and God's kingdom will be fully established.
