Spark Plugs in a 305 OMC Engine: A Guide

Maintaining the proper spark plugs in your 305 OMC engine is crucial for optimal performance and engine longevity. Here are some common questions and answers

about spark plugs for this engine:

What type of spark plugs does a 305 OMC engine require? OMC recommends using AC MR43T spark plugs for the 305 OMC engine. These spark plugs feature a heat range of 43 and a 14mm thread diameter. They are specifically designed for marine applications and provide excellent ignition performance and durability in saltwater environments.

How often should I change the spark plugs in a 305 OMC engine? OMC recommends changing the spark plugs in a 305 OMC engine every 100 operating hours or annually, whichever comes first. However, it's important to inspect the spark plugs regularly, especially if you notice any performance issues.

What are the symptoms of bad spark plugs in a 305 OMC engine? Bad spark plugs can cause a range of symptoms in a 305 OMC engine, including:

- Hard starting or stalling
- Rough idle or hesitation
- Decreased fuel efficiency
- Reduced power and acceleration

How do I replace the spark plugs in a 305 OMC engine? Replacing the spark plugs in a 305 OMC engine is a relatively simple task that can be completed with basic tools. To do so:

1. Remove the spark plug wires from the old plugs.
2. Use a spark plug wrench to remove the old plugs.
3. Install the new spark plugs by hand, carefully threading them into place.
4. Tighten the spark plugs using the spark plug wrench, following the recommended torque specifications.
5. Reattach the spark plug wires to the new plugs.

Additional Tips:

- Always gap the new spark plugs according to the manufacturer's specifications before installing them.

- When replacing spark plugs, it's a good idea to inspect the spark plug wires and replace them if they show signs of damage or corrosion.
- Keep a spare set of spark plugs on board your boat for emergencies.
