There are basic aspects that should be included in the examination. History: This includes the history of the patient's medical, social, and work history, along with treatment history.

What score do you need to scale FCE? A score between 140-159 means that your reading level is B1, 160-179 represents B2 and scores above 180 is level C1. As you are going to see with the other parts, the Cambridge English Scale scores and CEFR levels are always the same, but the test scores (your marks in the exam) change from paper to paper.

Transitive and Intransitive Verbs: A Comprehensive Guide

In English grammar, verbs play a crucial role in expressing actions or states of being. One distinction between verbs is their transitivity, which determines whether or not they require a direct object to complete their meaning. In this article, we will delve into the concepts of transitive and intransitive verbs, answering common questions to provide a comprehensive understanding.

What are Transitive Verbs?

Transitive verbs are verbs that require a direct object to receive the action of the subject. In other words, the direct object is the recipient of the action performed by the subject. For example, in the sentence "The cat caught the mouse," "caught" is a

transitive verb, and "mouse" is its direct object.

What are Intransitive Verbs?

Intransitive verbs, on the other hand, do not require a direct object. They typically express actions or states of being that are complete in themselves. For instance, in the sentence "The dog barked," "barked" is an intransitive verb because the action does not transfer to any other entity.

How to Identify Transitive and Intransitive Verbs?

To identify transitive verbs, ask yourself if the verb can be followed by a noun that receives the action of the subject. If yes, it is transitive. For intransitive verbs, no such noun is needed to complete the sentence.

Examples of Transitive and Intransitive Verbs

Here are some examples of transitive and intransitive verbs:

Transitive Verbs:

- Throw (e.g., She threw the ball.)
- Give (e.g., He gave me a present.)
- Hit (e.g., The boy hit the tree.)

Intransitive Verbs:

- Run (e.g., The children are running.)
- Sleep (e.g., The baby is sleeping.)
- Appear (e.g., The moon appeared.)

Conclusion

Understanding the difference between transitive and intransitive verbs is essential for constructing grammatically correct sentences. By distinguishing between these two types of verbs, you can enhance your writing and speaking abilities, ensuring clarity and precision in your communication.
