5 Common Questions About the Citroën 2CV

1. What is the Citroën 2CV?

The Citroën 2CV (deux chevaux, meaning "two horsepower") is a small, lightweight passenger car manufactured by Citroën from 1948 to 1990. It was designed to be affordable, durable, and easy to maintain, making it a popular choice for farmers, rural communities, and urban environments alike.

2. Why is the 2CV so distinctive?

The 2CV is known for its unconventional appearance, characterized by:

- A rounded, boxy design
- A canvas or metal roof that could be rolled up
- A simple, low-maintenance engine
- Independent suspension that provided a remarkably smooth ride

3. How powerful is the 2CV engine?

Despite its name, the 2CV engine actually produced around 12 horsepower. This low power output contributed to the car's fuel efficiency but limited its top speed to around 60 mph.

4. What was the production history of the 2CV?

The 2CV was produced for over 40 years, with over 5 million units sold worldwide. It underwent several minor updates over the years, but its core design remained largely unchanged. Production ended in 1990 due to increasingly stringent safety

and emissions regulations.

5. Is the 2CV still popular today?

Despite being discontinued over 30 years ago, the 2CV remains a cult classic. It is prized by collectors and enthusiasts for its unique character, reliability, and historical significance. Many 2CVs are still in regular use, and there are active clubs and forums dedicated to preserving and celebrating the legacy of this iconic automobile.
