**What is the point of Benito Cereno?** Benito Cereno is a compelling story about the struggle of slaves for freedom by any means necessary, including deception, deceit, cunning, and violence. Though unarmed, the slaves succeed in taking command of their slave ship.

**What is the twist in Benito Cereno?** Delano realizes that Don Benito is a prisoner and that the peculiar circumstances aboard the San Dominick are an elaborate charade perpetrated by rebels to make him believe that Don Benito is still in charge. Led by Delano's mate, the Americans take possession of the Spanish ship and render aid to the weakened captain.

**What is the story of Benito Cereno?** Benito Cereno is a fictional story, but it was likely partly inspired by a real slave revolt that occurred aboard the Spanish ship La Amistad only sixteen years before the novella was published. On June 28, 1839, La Amistad set sail from a small port located near Puerto Príncipe, Cuba.

**What happens to Babo at the end of the novella?** At the end of the trial, Babo is executed and his head placed on a pole. Cereno falls into a deep misery, and a few months later he dies—he did indeed "follow his leader."

**What is the irony in Benito Cereno?** However, the irony of the scene is that Babo is not attempting to make Benito Cereno confess, the professed goal of the Inquisition. On the contrary, the "Inquisitor" is making Benito Cereno lie to Captain Delano.

**Is Benito Cereno pro or anti slavery?** Because of its ambiguity, the novella has been read by some as racist and pro-slavery and by others as anti-racist and abolitionist.

**What is the moral theory of Benito Cereno?** Benito Cereno shows that being a moral person requires more effort than simply being kind and compassionate. Beyond individual actions, morality involves recognizing the structures of power and injustice that affect different people unequally.

**What does the knot mean in Benito Cereno?** Next. Flags. The convoluted knot that Captain Delano sees a sailor tying aboard the San Dominick highlights the tense and seemingly unsolvable social situation that a slave society engenders. On the ship, Delano sees a Spanish sailor tie a knot made of various individual knots.

**Who is the hero in Benito Cereno?** The protagonist of Benito Cereno is a ship captain from Duxbury, Massachusetts, operating a ship called the Bachelor's Delight.

**What are the themes in Benito Cereno?**

**What did Babo do in Benito Cereno?** During the slave revolt, Babo, with the help of his assistant Atufal, orders Spanish soldiers to be thrown overboard alive, to be eaten by sharks. He also orders Cereno's best friend Alexandro Aranda to be killed, before using his skeleton as the ship's figure-head.

**Whose point of view does the deposition represent in Benito Cereno?** It is, of course, essential for students to realize that Bartleby's story is narrated by his boss and that "Benito Cereno," though in the third person, is narrated primarily from Delano's point of view, except for the Deposition, which represents Benito Cereno's point of view.

**Is Benito Cereno a true story?** Melville's "Benito Cereno" and the film Captain Phillips are both based on actual events in which black Africans unlawfully seized control of a ship led by whites; in both cases, (a kind of) order was eventually restored after Americans violently suppressed the Africans.

**What does Captain Delano think of Benito Cereno?** Delano wonders if Cereno is an aristocrat who was given command of a ship, even though he doesn't seem to be a very good captain. But Delano is a patient and forgiving man, so he persuades himself that Cereno's behavior is a result of the trouble Cereno and his ship have suffered.

**Why does Babo stay so close to Captain Cereno?** Throughout the story, Babo's proximity, which he disguises as concern for his master, is nothing but an effort to control Cereno's every act and remind Cereno that he will never be able to escape.
