Ford Focus Maintenance Guide**

Major Service on a Ford Focus

A major service for a Ford Focus entails a comprehensive inspection and replacement of essential components to ensure optimal performance and longevity. This typically includes:

- Oil and filter change
- Brake inspection and pad replacement if necessary
- Cabin air filter replacement
- Engine air filter replacement
- Spark plug replacement
- Fuel injector cleaning
- Transmission fluid change
- Differential fluid change
- Timing belt inspection and replacement if due

How Much Oil Does a 2001 Ford Focus Take?

A 2001 Ford Focus requires 4.5 quarts (4.3 liters) of 5W-30 oil.

When Should a Ford Focus Be Serviced?

Ford recommends servicing your Focus at regular intervals based on mileage or time. Refer to your vehicle's owner's manual for specific intervals.

Where is the Oil Filter on a 2001 Ford Focus?

The oil filter is located on the bottom of the engine, near the front.

How Often Should a Ford Automatic Gearbox Be Serviced?

Transmission fluid should be changed every 30,000 to 60,000 miles (48,000 to 96,000 km).

How Many Km is a Major Service?

A major service is typically performed every 100,000 km (62,000 miles).

Is 5W-30 Oil OK for Ford Focus?

Yes, 5W-30 is the recommended oil for most Ford Focus models.

How Fast is a 2001 Ford Focus?

The top speed of a 2001 Ford Focus is approximately 115 mph (185 km/h).

How Much Gas Does a 2001 Ford Focus Hold?

The fuel tank capacity of a 2001 Ford Focus is 14.1 gallons (53 liters).

Is Ford Focus Cheap to Maintain?

The Ford Focus is relatively inexpensive to maintain, with average annual maintenance costs ranging from \$400 to \$600.

How Long Can a Ford Focus Go Without an Oil Change?

You should not go more than 5,000 miles (8,000 km) between oil changes.

How Long Will a Ford Focus Engine Last?

With proper maintenance, a Ford Focus engine can last up to 200,000 to 300,000 miles (320,000 to 480,000 km).

Where is the Air Filter in a 2001 Ford Focus?

The air filter is located inside the air filter box, which is situated in the engine compartment.

Where is the Fuel Filter Located on a 2001 Ford Focus?

The fuel filter is located in the fuel line, near the fuel tank.

What Oil Does a 2002 Ford Focus Take?

A 2002 Ford Focus also requires 5W-30 oil.

How Often Does a Ford Focus Need Servicing?

Recommended service intervals may vary depending on your driving conditions. Consult your owner's manual for specific recommendations.

How Do I Know When My Ford Needs a Service?

Your Ford will display a "Service Required" light on the dashboard when a service is due.

How Often Should Gearbox Fluid Be Changed?

Every 30,000 to 60,000 miles (48,000 to 96,000 km).

What Service After 100,000 Km?

Major service including timing belt replacement, spark plug replacement, and fuel injector cleaning.
