Uglies and Pretties: A Dystopian Tale by Scott Westerfeld

Q: What is the premise of "Uglies" by Scott Westerfeld? A: "Uglies" is a dystopian novel that follows 16-year-old Tally Youngblood as she lives in a society where everyone is made surgically "pretty" at age 16. The operation removes all flaws and differences, leaving everyone the same and expected to conform.

Q: What is the underlying theme of the novel? A: The novel explores themes of beauty standards, individuality, and the dangers of conformity. It questions the societal pressure to conform and the consequences of suppressing individuality.

Q: How do the characters in "Uglies" navigate the society's expectations? A: Tally struggles with the pressure to become pretty, but she also questions the superficiality of the society. She meets a group of rebels known as the Smokies who reject the system and live outside the city. Together, they challenge the status quo and search for true beauty in diversity.

Q: What are the "Pretties" and how do they differ from the "Uglies"? A: The "Pretties" are the teenagers who have undergone the surgical procedure and are now considered socially acceptable. They are expected to maintain their beauty and conform to the society's standards. The "Uglies," on the other hand, are those who have not yet had the operation and are considered undesirable.

Q: How does "Uglies" resonate with contemporary society? A: The novel remains relevant today as it critiques societal pressures surrounding beauty and conformity. It sparks conversations about the importance of individuality, accepting

differences, and challenging societal norms that prioritize physical appearance over substance.

When the Moon Split: An Exegesis by Safiur Rahman Mubarakpuri

Question: Did the moon physically split in half during the time of the Prophet Muhammad (PBUH)?

Answer: According to Safiur Rahman Mubarakpuri, a renowned Islamic scholar and author of "The Sealed Nectar", the answer is yes. Mubarakpuri, citing numerous early Islamic sources including the Quran, Hadith, and the historical works of Ibn Hisham and Ibn Ishaq, presents compelling evidence to support the occurrence of the moon's splitting.

Question: What is the Quranic basis for the moon's splitting?

Answer: The Quran mentions the moon's splitting in Surah Al-Qamar (The Moon), verse 1: "The Hour has drawn near, and the moon has split." Mubarakpuri explains that this verse clearly indicates the literal splitting of the moon, not a metaphorical or figurative event.

Question: How did the witnesses describe the event?

Answer: Mubarakpuri quotes various eyewitness accounts from the time of the Prophet Muhammad (PBUH), including those of Abu Talib, Abu Bakr, and Anas bin Malik. These witnesses described seeing the moon split into two halves, which moved apart and then came back together.

Question: What is the historical significance of the moon's splitting?

Answer: Mubarakpuri emphasizes the importance of the moon's splitting as a miracle that confirmed the Prophethood of Muhammad (PBUH). It also challenged the pagan beliefs of the Quraish, who claimed that the moon was an idol.

Question: Does modern science support the moon's splitting?

Answer: Mubarakpuri discusses theories proposed by some geologists and astronomers to explain the possible causes of the moon's splitting, such as a volcanic eruption, an earthquake, or a meteorite impact. However, he concludes that while these theories may offer plausible explanations, the ultimate cause of the moon's splitting remains a mystery known only to Allah.
