Frequently Asked Questions About Johnson and Evinrude Outboard Motors

Are Johnson and Evinrude motors the same?

Yes, Johnson and Evinrude outboard motors are the same. Both brands were owned by Outboard Marine Corporation (OMC) and used similar designs and parts.

What year did Johnson outboards go out of business?

2001

How do you tell the year of a Johnson outboard motor?

Look for the model number on the engine's transom bracket. The first two digits of the model number indicate the year of manufacture.

How much does a 25hp Johnson outboard weigh?

Approximately 120 pounds

What's the best outboard motor brand?

There is no definitive answer to this question, as different brands excel in different areas. However, some of the most popular and reliable brands include Mercury, Yamaha, Suzuki, Honda, and Evinrude.

What year did they stop making Evinrude Outboard Motors?

2020

Are old outboards worth anything?

Yes, old outboard motors can be worth money, especially if they are in good condition and have historical significance.

Can you still get Johnson outboard parts?

Yes, Johnson outboard parts are still available from various retailers and online stores.

Which outboards last the longest?

Outboards from reputable brands like Yamaha, Mercury, and Suzuki tend to have the longest lifespans, with some lasting over 15 years with proper maintenance.

Where is the VIN number on a Johnson outboard motor?

The VIN number is located on the engine's transom bracket.

How do I know what motor my outboard has?

Check the model number on the transom bracket. The model number will include a letter that indicates the horsepower of the motor.

Can you tell a year by a serial number?

Yes, the first two digits of the serial number typically indicate the year of manufacture.

How many cc is a 25hp outboard motor?

Approximately 500 cc

How heavy is a 25 hp outboard?

Around 120-140 pounds
