Why is Twilight criticised? In its heyday, the franchise drew ire from Christian groups, concerned moms, and everyone in between. Non-fans worried that a story so singularly focused on romantic entanglements with questionable, "over-protective," and domineering boys would drive teenage girls into unhealthy relationships.

Is Twilight Rated PG-13 or R? There's one fight scene near the end that could be easily skipped. The romance isn't more graphic than most PG-13 movies, and there's no language. Overall, this is a great sleepover movie and it's very entertaining.

Is the Twilight series clean? The movie adaptations came out with PG-13 ratings, suggesting that the content was best for teens age 13 and up, and parental guidance may be needed. "Twilight," "New Moon," and "Eclipse" contain some disturbing images, sexuality, and violent content.
