How long does the driver theory test take? You have 45 minutes to answer the 40 questions in the test. You can find out more from theorytest.ie.

What if I failed my theory test by one mark? We often hear learners complaining they only failed the theory test "by one mark" - but this actually means they got 8 questions wrong. Try to pass with as close to 100% as possible to safeguard you on the day of your actual test, where you may also be faced by nerves and distractions.

Is it common to fail your theory test for the first time? What's the average number of theory test attempts and fails? Passing the theory test might not be as straightforward as it sounds. In fact, the 2019/20 pass rate was 47.7%, meaning that more than 1 in 2 candidates didn't reach the pass mark on either one or both sections.

What score do you need to pass theory test? You need to get 44 marks out of the 75 available to pass. If you pass one part of the theory test but fail the other, you will need to retake the entire exam. This is the second part of the theory test, and it is taken almost immediately after the multiple-choice questions.

What can I do if I can't pass my theory test?

What's harder, theory or practical? According to DVSA statistics for 2022/23, the pass rate for the theory test was 44.2%, while for the practical driving test it was 48.4%. So purely from a statistical point of view, the theory test is harder to pass. But it's worth bearing in mind that everybody has different strengths and weaknesses.
