WILEY COLLEGE KIESO 15TH EDITION: Understanding Accounting Concepts

Q&A with Accounting Expert

1. What is the purpose of financial accounting? A: Financial accounting provides financial information about an entity to external users such as investors, creditors, and government agencies. The goal is to enhance decision-making and oversight by presenting the entity's financial position, results of operations, and cash flows.

2. Explain the concept of accrual accounting. A: Accrual accounting records transactions and events when they occur, regardless of when cash is received or paid. This ensures that revenue and expenses are matched to the period in which they were earned or incurred. This provides a more accurate representation of the company's financial performance.

3. What are the elements of financial statements? A: Financial statements consist of the balance sheet, income statement, statement of cash flows, and statement of changes in equity. The balance sheet provides a snapshot of the company's assets, liabilities, and equity at a given point in time. The income statement reports the company's revenues, expenses, and profit or loss for a specific period of time. The statement of cash flows shows the inflow and outflow of cash during a period. The statement of changes in equity tracks changes in the company's ownership interest.

4. How are inventory costs determined? A: Inventory costs are determined using the following methods: First-in, First-out (FIFO), Last-in, First-out (LIFO), Weighted Average, and Specific Identification. Each method assumes a different flow of inventory costs, which can have an impact on the company's financial statements.

5. Explain the concept of depreciation and its impact on financial statements.

A: Depreciation is a non-cash expense that reduces the carrying value of fixed assets, such as property, plant, and equipment. Depreciation is determined based on the asset's useful life and recovery value. It reduces the asset's book value and impacts the income statement by reducing net income.
