Textile Trends for Fall/Winter 2017/18: Insights from ISPO Press

Q1: What are the key color trends for the upcoming season?

A: Earthy hues like olive, brown, and burgundy dominate the palette, reflecting a connection to nature. In contrast, jewel tones such as emerald green, ruby red, and sapphire blue add a touch of sophistication.

Q2: What types of fabrics and textures are gaining popularity?

A: Soft, cozy fabrics like velvet, faux fur, and cashmere provide a warm and inviting feel. Textured materials like tweed, corduroy, and lace add depth and interest. Sustainable fabrics, such as organic cotton and recycled polyester, are also on the rise.

Q3: What patterns and prints are in vogue?

A: Plaid remains a popular mainstay, with variations in scale and color combinations. Stripes, checks, and florals are also prevalent. Animal prints, such as leopard and snake, add a touch of the wild to the collection.

Q4: How are textiles being used in functional garments?

A: Performance fabrics with moisture-wicking, thermoregulating, and antimicrobial properties are increasingly used in activewear. Reflective accents and high-visibility colors enhance safety in outdoor activities. Textiles are also being integrated into smart clothing with embedded sensors and technology.

Q5: What are some innovative textile developments to watch for?

A: 3D printing technology is allowing for the creation of complex and customizable textiles. Biomimicry, which mimics nature's designs, is inspiring new fabric structures with unique properties. Sustainable textiles made from recycled materials and plant-based fibers are also emerging as ethical and environmentally friendly options.
