It's absolutely incredible how much is actually going on at this moment, if we can be still enough to notice it. to be anchored in this moment is a good way to live.

What's the whole point of life? For some people, the purpose of life may be to make the world a better place. Others may believe that the point of life is to find and achieve personal fulfillment. And some may feel that the point of life is simply to enjoy it as much as possible.
