Electrical System Diagnostics for a 2007 Ford Focus\*\*

Maintaining a functional electrical system is crucial for the safety and performance of your vehicle. Here are answers to some common questions regarding the electrical components in a 2007 Ford Focus:

### Fuse Locations:

- **Where is the fuse in a Ford Focus?** Fuse boxes are located in the engine compartment and behind the driver's kick panel.
- **Which fuse is the radio in a Ford Focus?** Radio fuses are typically labeled "AUDIO" or "RADIO" and are located in the fuse box behind the driver's kick panel.
- **What is the fuse for the brake light on a 2007 Ford Focus?** The fuse for the brake light is labeled "SBK" and is located in the fuse box in the engine compartment.

### Relay Locations:

- **Where is the turn signal relay on a 2007 Ford Focus?** The turn signal relay is located in the fuse box in the engine compartment.
- **Where is the flasher relay on a 2005 Ford Focus?** The flasher relay is located in the fuse box in the engine compartment.
- **Where is the glow plug relay on a 2005 Ford Focus?** The glow plug relay is located in the engine compartment near the battery.

### Troubleshooting:

- **How do I know if my turn signal relay is bad?** Symptoms include intermittent or non-functioning turn signals, or a rapid or slow blinker rate.
- **How do you test a blinker relay?** Connect a multimeter to the relay terminals and check for continuity. A good relay should have continuity in the "ON" position and no continuity in the "OFF" position.
- **Can a fuse cause brake lights not to work?** Yes, a blown fuse for the brake light can prevent the lights from functioning.
- **What fuses control dashboard lights?** Dashboard light fuses vary by model and are typically labeled with specific functions, such as "CLUSTER" or "ILLUM".

#### Important Note:

- **Does a fuse control the radio?** Yes, a fuse protects the radio from electrical surges.
- **How do I know if my brake fuse is bad?** Check the fuse for any breaks or burned elements. A blown fuse will not allow current to flow to the brake lights.
