### **1. What is the recommended oil change interval?**

Toyota recommends changing the engine oil and filter every 5,000 miles for the 3L engine. However, this interval can vary depending on driving conditions and oil type. Using full-synthetic oil can extend the change interval to 7,500-10,000 miles.

### **2. What type of oil should I use?**

The recommended oil viscosity for the Toyota Hilux 3L engine is 5W-30. This oil provides adequate lubrication and protection across a wide temperature range. specifications.

### **4. What are the major service intervals?**

Major services for the Toyota Hilux 3L engine typically follow a 30,000-mile interval. These services include replacing spark plugs, belts, and hoses. Some additional services, such as brake fluid and coolant flushes, may also be recommended.

### **5. How can I ensure a reliable Toyota Hilux 3L engine?**

To ensure a reliable and long-lasting Toyota Hilux 3L engine, follow these tips:

- Adhere to the recommended maintenance schedule
- Use high-quality oil and filters
- Avoid excessive idling and aggressive driving
- Monitor fluid levels regularly
- Seek professional repairs at authorized Toyota dealerships
