

# PHILIPPINE NATIONAL STANDARD BUREAU OF AGRICULTURE AND

## [Download Complete File](#)

**Who regulates agriculture in the Philippines?** Republic Act No. 8435 (December 22, 1997), “The Agriculture and Fisheries Modernization Act of 1997”, mandated the Department of Agriculture (in keeping with the presidential form of government) to formulate and implement a medium and long-term comprehensive Agriculture and Fisheries Modernization Plan.

**What are Philippine national standards?** Philippine National Standard refers to a document stating the minimum standard for a specific commodity established to help industries produce quality products, raise productivity, protect consumers, and facilitate trade.

**What are Philippine agricultural engineering standards?** The centerpiece program of the government in poverty alleviation, food security, rationale use of resources, global competitiveness, and sustainable development is the Agriculture and Fisheries Modernization Act (AFMA).

**What is the Philippine organic standard?** The Philippines National Standards on Organic Agriculture (PNS-OA) and on Organic Soil Amendments (PNS-OSA) aim to provide an uniform approach to the requirements of crop production, processing, production of soil amendments, labelling and consumer information.

**What organization helps farmers in the Philippines?** Philippine Council for Agriculture and Fisheries. Realizing a more responsive agriculture and fisheries sector and promoting people empowerment through multi-stakeholder participatory process.

**Who controls the Department of Agriculture?** It is headed by the secretary of agriculture, who reports directly to the president of the United States and is a member of the president's Cabinet. The current secretary is Tom Vilsack, who has served since February 24, 2021.

**What is the role of the Bureau of Philippine Standards?** The Bureau of Philippine Standards (BPS) , under the Department of Trade and Industry (DTI), is the national standards body that develops, promulgates, implements, and promotes standardization activities in the Philippines.

**What is the role of the Bureau of standards?** Its main activities include: facilitating the development of standards and other requirements to which particular commodities, services, practices and processes must comply; monitoring for compliance; conducting tests and calibrating instruments; certifying products and management systems; providing industrial training ...

**What is the Philippine standards Authority?** The Bureau of Philippine Standards of the Department of Trade and Industry (DTI-BPS) serves as the National Standards Body of the Philippines and is mandated to develop, promulgate, implement, and promote standardization activities in the country.

**What are the three major agricultural systems in the Philippines?** Major agricultural systems include lowland irrigated farming, rainfed farming and upland farming. Irrigated farm areas mainly grow rice and sugarcane whereas rainfed areas are planted with coconut, corn and cassava.

**What is the Philippine agricultural Act?** 3844). An Act to ordain the Agricultural Land Reform Code and to institute land reforms in the Philippines, including the abolition of tenancy and the channelling of capital into industry, provide for the necessary implementing agencies, appropriate funds therefore and for other purposes.

**What rank is Philippines in agriculture?**

**What are the Philippine national standards?** National Standard - a standard developed/adopted and published by a National Standards Body and made available to the public. The BPS develops and publishes Philippine National Standards (PNS).

PHILIPPINE NATIONAL STANDARD BUREAU OF AGRICULTURE AND

**Who certifies organic products in the Philippines?** OCCP as an inspection and certification body was established as a distinct and independent organization from the original Organic Certification Center of the Philippines to comply with ISO 17065 requirements.

**What are the key principles of organic agriculture according to the Philippine national standard?** Some key elements of the PNS OA include: Prohibition of synthetic chemicals: The use of synthetic pesticides, fertilizers, growth regulators, and other chemical inputs is prohibited in organic production. Only approved natural and organic inputs are allowed.

**Why do farmers remain poor in the Philippines?** Why are farmers poor? There is a basic lack of access to inputs, credit, and markets. Our farmers are deeply in debt to traders who provide them the financing to buy seeds, fertilizers, and other essentials before the planting season starts.

**Why farmers quit farming in the Philippines?** First, the limited education hinders the Filipino farmers to adapt to the changing needs of agriculture. They are stuck in the traditional ways of farming and others don't even have basic farming skills. Most of them are elementary graduates so it would be hard for them to keep up with technological advancement.

**Who are the successful Filipino farmer in the Philippines?**

**Who is the head of the Department of Agriculture in the Philippines?**

**What powers does the Department of Agriculture have?** The USDA is responsible for overseeing farming, ranching, and forestry industries, as well as regulating aspects of food quality and safety and nutrition labeling. The USDA is further tasked with administering several social welfare programs including free school lunches and food stamps.

**Who holds the position of Department of Agriculture?**

**Who is the head of the Department of Agriculture in the Philippines?**

**What is the law that covers agricultural industries in the Philippines?** Republic Act 7607 primarily aims in realizing equitable distribution of benefits and opportunities through the empowerment of the small farmers. The law recognizes the country's responsibility for the welfare and development of small farmers by giving them support in attaining their socioeconomic goals.

**Who regulates the food industry in the Philippines?** As stipulated by the FSA, the DA is tasked to develop and enforce food safety standards and regulations for foods in the primary production and post-harvest stages of the food supply chain. Under the DA, food safety regulatory functions are bestowed on agencies specializing on various commodities (Table 1).

**Which agency of the Philippine government under the Department of Agriculture is responsible for serving and supporting the Philippine plant industry sector?** Bureau of Plant Industry (Philippines)

**Who is Joseph Prince and what does he believe?** A Faithful Pastor To His Church Having built and established the leadership and congregation of New Creation Church on the sure foundation of Jesus Christ, Joseph is now actively fulfilling, around the world, the mandate that God has given him to preach God's unmerited favor without compromise.

**What does Joseph Prince say about faith?**

**What ethnicity is Joseph Prince?** Prince was born in Singapore, the son of a Sikh priest of Indian origin and a Chinese mother. He converted to Christianity at age 12. Prince studied at Commonwealth Secondary School and completed his A levels at a private school, Our Lady of Lourdes.

**What is Joseph Prince doing now?** With more than two decades of full-time ministry behind him, Pastor Prince is today a leading voice in proclaiming the gospel of grace around the world through his books, teaching resources, and television ministry.

**What is the doctrine of Joseph Prince?** We believe that as born-again believers in Jesus Christ, we are called to live victoriously over the power of sin and to “walk worthy of the Lord, fully pleasing Him, being fruitful in every good work and

increasing in the knowledge of God” (Col. 1:10). We believe sin is always accompanied by destructive consequences.

**What does Joseph Prince mean by righteousness?** We became righteous because of what Jesus did for us at the cross. “Righteousness,” therefore, is not based on our right doing. It is based entirely on Jesus' right doing. Christianity is not about doing right to become righteous. It is all about believing right in Jesus to become righteous.

**What does Joseph Prince say about sin?** Can you see that the Bible's answer to overcoming sin is always to remind believers of their righteous identity in Christ? This is not to encourage us to sin but to encourage us to look to our Lord Jesus, to see our sins punished at the cross and to live victoriously and gloriously for Him.

**What are the practical benefits of seeing Jesus in the word Joseph Prince?** Seeing Jesus in the Word multiplies grace and peace to you—bringing good success, wellbeing, and wholeness.

**What does salvation mean to Joseph Prince?** Salvation is to be saved—from hell, from a broken relationship with God, and from the curses that plague mankind as a result of Adam's fall in the Garden of Eden.

**What is Joseph Prince's salary?** Last week, the New Creation Church rubbished claims by United States-based entertainment website Richest Lifestyle that its founding member and senior pastor Joseph Prince drew a salary of \$550,000 a year and had a net worth of US\$5 million (S\$6.4 million). However, there is no denying the extent of Mr Prince's reach.

**What is the meaning of hyper grace?** Hyper-Grace also called the modern grace message is a soteriological doctrine in Christianity which emphasizes divine grace and holds to eternal security. The view has been mostly popularized among certain expressions of Charismatic Christianity.

**Who is Joseph Prince's daughter?**

**Is the New Creation Church charismatic?** New Creation Church (abbreviation: NCC) is a non-denominational Charismatic Christian megachurch in Singapore. Founded in 1984, it holds church services at The Star Performing Arts Centre.

PHILIPPINE NATIONAL STANDARD BUREAU OF AGRICULTURE AND

**What was Joseph Prince's real name?** Prince changed his birth name from Xenonamandar Jegahusiee Singh to Joseph Prince during his previous occupation as an IT consultant, just before being appointed senior pastor in 1990.

**How old is Joseph Prince's wife Wendy?** Wendy Sue (Sandmoen) Prince, age 59, passed away peacefully surrounded by loved ones on July 15, 2023 after a long, courageous battle with colorectal cancer. Wendy was born on April 17, 1964 to Ron and Shirley Sandmoen in Grand Rapids, MN.

**What is faith according to Joseph Prince?** Faith comes by hearing and hearing by the word of Christ. The more of Jesus and His love you hear, the more faith rises in your heart. Get hold of teachings that preach all about Jesus and His finished work. Make it your priority to listen to the good news preached. There is power in the gospel of Jesus Christ!

**Who started antinomianism?** Antinomianism has been considered to teach that believers have a "license to sin" and that future sins do not require repentance. Johannes Agricola, to whom Antinomianism was first attributed, stated "If you sin, be happy, it should have no consequence."

**What is grace by Joseph Prince?** Grace is a Person, the beautiful Person of our Lord Jesus Christ. And because an encounter with Him is so glorious, so liberating, and so powerful in changing precious lives, the enemy has thrown up so many controversies and misconceptions around the gospel of grace.

**What is the difference between right and righteousness?** Rightness means that your answer or point of view is correct. You are right, not wrong. Righteousness is a religious concept. One explanation of righteousness is "right standing".

**How to be in right standing with God?** ROMANS 3:22 NLT 22 We are made right with God by placing our faith in Jesus Christ. And this is true for everyone who believes, no matter who we are. ROMANS 10:10 NLT 10 For it is by believing in your heart that you are made right with God, and it is by confessing with your mouth that you are saved.

**What makes a person righteous in God's eyes?** The only way for sinners like you and me to be righteous before God is through faith in Christ Jesus. When we believe

the Word of God which tells us that Christ fulfilled all righteousness for us and then was sacrificed for us to make full atonement for all our sins, God credits it to us for righteousness.

**Should believers confess their sins?** James 5:16 clearly says, “Confess your sins to one another and pray for one another, that you may be healed.” God assures us that while our relationship with him is personal, it's not private. Because we're a body, what we do in our personal lives affects our brothers and sisters in Christ.

**What are the virtue of Joseph that we can follow?** Joseph that can we imitate to become better versions of ourselves. Righteous – Don't just follow rules, but commit to doing what is good. Protector – Look out for those who God has put in your care. Worker – Resist the temptation to cut corners, and do the work God has given.

**What are the sins of Joseph in the Bible?** Joseph refused her advances because he knew it was dishonorable to sleep with the wife of his master (who deeply trusted him) and because it was sin—breaking God's law against adultery and fornication (verses 8-9).

**Why is Joseph important to Jesus?** According to the Gospels, Mary, a virgin betrothed to Joseph, conceived Jesus by the power of the Holy Spirit – and therefore Christians consider Jesus the Son of God. However, most Christians understand Joseph to be a true father in every way except biological, since Joseph was the legal father who raised Jesus.

**What does the story of Joseph teach us about Jesus?** Christ's life and death made a way to save people from spiritual death, which is the penalty of sin. Joseph recognized that though his brothers intended evil, God planned his circumstances for good – to establish a remnant of God's people (Genesis 45:7).

**What insights can you gain from seeing Jesus as God's word?** Yet, when you find Him in the Word, you find yourself in Him for “as He is, so are we in this world”. (1 John 4:17) You discover that as He is righteous, accepted and favored before God, so are you. As He is full of health, wholeness and life, so are you!

**Téléchargez Gratuitement le Livre de Cuisine de Choumicha**

**Qu'est-ce que le livre de cuisine de Choumicha ?**

---

PHILIPPINE NATIONAL STANDARD BUREAU OF AGRICULTURE AND

Le livre de cuisine de Choumicha est un recueil de recettes savoureuses et traditionnelles de la cuisine marocaine. Écrit par la célèbre chef marocaine Choumicha Chafay, ce livre propose une large gamme de plats, allant des entrées aux desserts.

### **Pourquoi devriez-vous le télécharger ?**

- **Recettes authentiques** : Apprenez à préparer des plats marocains authentiques grâce aux recettes éprouvées de Choumicha.
- **Variété de plats** : Découvrez une grande variété de recettes, y compris des tajines, couscous, soupes, salades et pâtisseries.
- **Instructions claires et concises** : Les recettes sont écrites dans un langage simple et facile à suivre, même pour les cuisiniers débutants.
- **Conseils pratiques** : Choumicha partage des conseils pratiques et des astuces pour préparer et présenter parfaitement vos plats.

### **Comment télécharger le livre gratuitement ?**

Vous pouvez télécharger gratuitement le livre de cuisine de Choumicha en suivant les étapes suivantes :

- Visitez le site officiel de Choumicha : <https://www.choumicha.net/>
- Allez dans la section "Recettes"
- Cliquez sur "Téléchargez le livre de recettes"
- Entrez votre adresse e-mail
- Cliquez sur "Envoyer"

### **Autres questions fréquemment posées**

- **Le livre est-il disponible en d'autres langues ?** Oui, le livre est également disponible en anglais et en arabe.
- **Puis-je imprimer le livre ?** Oui, vous pouvez imprimer le livre pour une référence facile dans votre cuisine.
- **Où puis-je obtenir des commentaires sur les recettes ?** Vous pouvez

## **Strategic Project Management Made Simple: Q&A with Terry Schmidt**

**Question:** What is strategic project management and why is it important?

**Answer:** Strategic project management is the process of aligning projects with the overall strategic goals of an organization. It's important because it ensures that projects are contributing directly to the organization's success.

**Question:** What are the key elements of strategic project management?

**Answer:** The key elements include:

- **Project Prioritization:** Identifying and selecting projects that are most aligned with strategic goals.
- **Resource Allocation:** Allocating resources to projects in a way that maximizes their impact on the organization.
- **Project Execution:** Managing projects effectively to ensure they meet their objectives and contribute to the overall strategy.
- **Performance Measurement:** Monitoring and evaluating project performance against strategic goals to ensure alignment and make necessary adjustments.
- **Stakeholder Engagement:** Engaging stakeholders throughout the project lifecycle to ensure buy-in and support.

**Question:** How can organizations implement strategic project management?

**Answer:** Implement a formal process for project prioritization and selection.

- Establish clear communication channels to ensure stakeholder engagement.
- Use project management software to track and monitor project progress.
- Train project managers on strategic project management principles.
- Establish a project governance board to oversee project execution and alignment with strategic goals.

**Question:** What are the benefits of strategic project management?

**Answer:** Benefits include:

- **Increased project success rate:** Projects are more likely to achieve their objectives and contribute to the organization's success.
- **Improved resource allocation:** Resources are allocated more efficiently, resulting in greater productivity and cost savings.
- **Enhanced stakeholder engagement:** Stakeholders are more engaged and supportive, leading to smoother project execution.
- **Greater organizational alignment:** Projects are directly aligned with the organization's strategic goals, ensuring that the organization is working together towards a common purpose.

**Question:** What are some common challenges in strategic project management?

**Answer:** Challenges include:

- **Stakeholder resistance:** Stakeholders may not always understand or agree with project decisions, leading to potential conflict.
- **Changing strategic priorities:** Strategic priorities can change over time, requiring projects to be reassessed and adjusted accordingly.
- **Integration with organizational planning:** Projects should be integrated with the overall organizational planning process to ensure alignment and avoid duplication of effort.
