How old is Clary in City of Fallen Angels? The Mortal War is over, and sixteen-year-old Clary Fray is back home in New York, excited about all the possibilities before her. She's training to become a Shadowhunter and to use her unique power. Her mother is getting married to the love of her life. Downworlders and Shadowhunters are at peace at last.

What is the book City of Fallen Angels about? City of Fallen Angels by Cassandra Clare is the fourth book in the Mortal Instruments series. In it, Simon Lewis tries to get used to his new life as a vampire, while Clary seeks to establish a steady relationship with Jace. Lilith, a demon, seeks power in New York. The book opens with Simon at the age of sixteen.

Is there a number 2 of The Mortal Instruments: City of Bones? The film was originally intended to launch a film series and to continue with a sequel based on the second book, City of Ashes, that was in development with Sigourney Weaver set to join the cast. However, it was postponed indefinitely and ultimately cancelled due to the film's poor performance.

Why is Jace avoiding Clary? Meanwhile, Jace has been having dreams in which he murders Clary, which makes him want to avoid her. This makes Clary worry about their relationship.

Who does Clary have a baby with? Most Shadowhunters have their babies at home with the assistance of a private midwife and/or The Silent Brothers, and Clary has chosen to also give birth at home, however she and Jace have agreed that they will only summon The Silent Brothers if absolutely necessary, and just have their

midwife deliver the baby.

Who is Clary's real brother? At last, Magnus wakes Clary's mother Jocelyn, who informs Clary that Jace isn't her brother. Her real brother is Jonathan Morgenstern, who has, this whole time, pretended to be Sebastian. It is soon revealed that Sebastian is a spy for Valentine and that he tried to seduce Clary into teaming up with him.

Is *The City of Falling Angels* Based on a true story? In fact, it is a work of non-fiction, but its rich cast of characters might provide enough material for several novels; they leap off the page in all their obsessions, follies, and foibles with an intensity that seems to belong more to fiction than to sober fact.

What mark did Clary give Simon? Several attempts are made on his life, but the "Mark of Cain" that his best friend, Clary, gave him means that anyone who tries to kill him will have a horrible death.

Why was *Mortal Instruments 2* cancelled? Summary. The *Mortal Instruments: City of Bones* was a box office flop, making only \$95.4 million worldwide against its \$60 million production budget. The sequel, *City of Ashes*, was canceled due to the poor box office performance and negative reviews of the first film.

Why did *Mortal Instruments* fail? The film made significant changes to the books, which disappointed diehard fans and strayed too far from the source material. *City of Bones* didn't give enough screen time or development to its supporting cast, which hindered the film's success.

Do Jace and Clary kiss in *City of Bones*? In *City of Bones*, Clary and Jace like each other, and kiss. At the end, Valentine shows up and is like "Ya'll are siblings."

What book does Jace find out he's not Clary's brother? In book three, Jace and Clary find out that they aren't actually siblings.

Does Jace ask Clary to marry him? Lucie Belle If you look at the snippets from Lord of Shadows, Clary tells Emma, "Jace asked me to marry him," and "you're the only one I've told", but not about the marriage.

What is the age difference between Jace and Clary? At the beginning of the series Clary has just turned 18 and Jace is in his early 20s, although these ages are bumped up from the beginning of the books in which clary is 15 and has her 16th birthday in City of Bones and Jace is 16 years old.
