When we surrender our own desires and let Christ take control, we are freed from the bondage of sin and self-centeredness. This allows us to experience the joy, peace, and love that only Christ can bring.

#### **How can we live a crucified life?**

To live a crucified life, we must first understand the cost. It is not a path for the faint of heart or the self-seeking. We must be prepared to give up our own plans and ambitions, and to embrace God's will for our lives.

### **The Kurds and US Foreign Policy in the Middle East: A Historical Perspective**

The Kurds, an ancient people inhabiting the mountainous regions of Turkey, Iraq, Iran, and Syria, have long played a pivotal role in regional dynamics. Their complex history is intertwined with the foreign policy strategies of the United States, particularly after World War II.

#### **Q: What role did the Kurds play in US foreign policy during the Cold War era?**

A: The US initially saw the Kurds as a potential ally against the Soviet Union, particularly in Iraq and Iran. However, support for Kurdish separatist movements was tempered by fears of destabilizing the region.

#### **Q: How did the Gulf War of 1991 impact US-Kurdish relations?**

A: The US-led coalition against Iraq created a safe haven for Iraqi Kurds in northern Iraq, leading to the establishment of the autonomous Kurdistan Regional Government (KRG). This enhanced US influence in the region but also raised concerns about Kurdish aspirations for independence.

#### **Q: What has been the US's stance on Kurdish independence?**

A: The US has consistently opposed Kurdish independence, fearing its potential destabilizing effects on the Middle East. However, it has provided significant support

to the KRG, particularly in areas such as economic development and security.

**Q: How has the rise of ISIS impacted US and Kurdish relations?**

A: The emergence of ISIS in 2014 strengthened US cooperation with Kurdish forces, who played a crucial role in the fight against the terrorist group. This collaboration led to further US assistance to the KRG, including military training and equipment.

**Conclusion:**

The US's foreign policy towards the Kurds has been shaped by a complex interplay of strategic interests, regional stability concerns, and humanitarian considerations. While the US has sought to maintain a balance between supporting Kurdish aspirations and preserving the territorial integrity of Middle Eastern states, the ongoing challenges in the region continue to test the limits of US diplomacy.
