What is Cassandra about Christa Wolf? Set during the Trojan War, this book deals with the life of Cassandra, a seeress and daughter of King Priam, whose story hasn't been dealt with in such detail before (as far as I'm aware - correct me if I'm wrong!), and her thoughts as she comes to terms with the events and politics of the Trojan war.

What is the relationship between Aeneas and Cassandra? When Cassandra is presented among the city's virgins for deflowering, she is chosen by Aeneas, who makes love to her only later. Nonetheless, she falls in love with him, and is devoted to him despite her liaisons with others, including Panthous — indeed, she imagines Aeneas whenever she is with anyone else.

Who did Cassandra fall in love with? Cassandra is one of the daughters of King Priam of Troy. A priestess, she dedicates her life to the god Apollo, who, in the oldest and commonest versions of the myth, falls in love with her. To win her love, he endows her with the gift of foretelling the future.

Why did Cassandra go mad? Her cursed gift from Apollo became an endless pain and frustration to her. She was seen as a liar and a madwoman by her family and by the Trojan people. Because of this, her father, Priam, had locked her away in a chamber and guarded her like the madwoman she was believed to be.

Who was the lover of Cassandra? The god Apollo fell in love with Cassandra and offered her the gift of foretelling the future in return for her love. Cassandra agreed to the bargain and received Apollo's gift but then refused to keep her word. In retaliation, Apollo cursed her so that her prophecies would never be believed.

Which God fell in love with Cassandra? According to Aeschylus's tragedy Agamemnon, Cassandra was loved by the god Apollo, who promised her the power of prophecy if she would comply with his desires.

Who did Aeneas fall in love with? Venus and Juno come together to create a storm, forcing Dido and Aeneas into a cave together. There, they declare their feelings for each other and consummate their love.
