

Applying international financial standards picker

Download Complete File

What is the fourth edition of applying IFRS standards? The fourth edition of Applying IFRS Standards explains the core principles of International Financial Reporting (IFRS) Standards. It also addresses the skills needed to apply the standards in business environments.

Why is IFRS 4 being replaced? IFRS 17 replaces IFRS 4 Insurance Contracts. When introduced in 2004, IFRS 4—an interim Standard—was meant to limit changes to existing insurance accounting practices. Hence, IFRS 4 has allowed insurers to use different accounting policies to measure similar insurance contracts they write in different countries.

Who needs to apply IFRS? Financial statements in accordance with IFRS must be prepared by: Public interest entities – banks, insurance companies (except health), asset management companies, stock exchange and their branches. An entity that is a trading company and has at least two consecutive accounting periods.
