How long will Land Rover Freelander 2 last for? The estimated lifespan of a Land Rover Freelander is 236,000mi, before reaching the life expectancy upper limit.

Is a Land Rover LR2 a Freelander? The compact LR2 replaced the car-derived Freelander, a four-wheel-driver with fully independent suspension but no low-range gearing. Despite its unibody construction, the LR2 still provided good off-road ability.

Are Land Rover Freelander 2 reliable? The Freelander 2 ranked 19th in our Driver Power 2017 used car survey, and was in the top 10 for safety, comfort, practicality and handling. But while 22nd for reliability is also great, 83rd for running costs isn't.

How long does LR2 last? How reliable is the Land Rover LR2? iSeeCars analyzed over 300 million vehicles to find out, and to determine how long each model can last. The Land Rover LR2 has an average lifespan of 130,683 miles or about 9.6 years.

What are the common faults of a Land Rover Freelander? What are the common problems with a Freelander? Amongst the most commonly reported problems are suspension and steering tracking alignment issues, causing excessive and uneven wheel alignment, which shows up as uneven and premature tyre wear.

Why was Freelander discontinued? Due to a combination of financial concerns and poor sales, Land Rover decided to discontinue the Freelander in 2014 and replace it with the Discovery Sport.

Does the Freelander 2 have a Ford engine? The Freelander 2's engine range included the transversely-mounted 3.2-litre straight-six engine of the Ford SI6 series, which debuted in the Volvo S80, as well as the 2.2-litre DW12 common rail turbodiesel engine, co-developed by Ford and PSA Peugeot Citroën.

Are Land Rover Freelanders expensive to maintain? Servicing costs Land Rover servicing is generally reasonable compared with other premium brands such as Mercedes, but there's a big, 10-year service to consider that covers the timing belt, as well as all of the fluids for the engine, gearbox and four-wheel drive system. This can run to more than £1000.

How often should a Freelander 2 be serviced? It should be serviced every 15,000 miles or twelve months, whichever comes sooner. The A-service should take place at 15,000 miles or every 12 months, and the B-service at 30,000 miles or every 24 months.

What are the recall issues with Freelander? For starters, more than 21,000 cars were recalled because of the potential for stress crack in the plastic fuel tank. This needed to be replaced. Then 9834 cars were recalled because the child lock in the left rear door could fail, allowing the door to be opened from the inside. Locks were replaced by dealers.

How many miles can you get out of a Land Rover LR2? Land Rovers have an average life span of 13 years or 200,000 miles when well cared for.

Are Land Rover LR2 expensive to maintain? Land Rover maintenance and repair costs by model Of the models that RepairPal has data for, the LR2 is the most budget-friendly Land Rover, costing owners an average of \$895 per year in maintenance and repairs.

What was the last year of the LR2? Vehicle Summary 2015 is the final model year for the LR2; the Land Rover Discovery Sport arrives for 2016.

What is the mileage of Land Rover Freelander 2? Land Rover Freelander 2 mileage is 12.39 kmpl. The diesel mileage for Land Rover Freelander 2 is 12.39 kmpl.

What is the life expectancy of a Land Rover? The lifespan of a Land Rover is a variable as the landscapes it traverses. On average, a well-maintained Land Rover can last for up to 200,000 miles before you start encountering major issues. But certain models and how you use them can speed that clock up or slow it down.

How many miles is too many for a used Land Rover? Every Certified Pre-Owned Land Rover has fewer than 60,000 miles on the odometer, and anything below this upper limit could be described as great mileage! Of course, no two drivers have exactly the same needs—but there's a relatively simple way to tell if a used car is a good investment.

Why did they stop making the Freelander 2? Due to a combination of financial concerns and poor sales, Land Rover decided to discontinue the Freelander in 2014 and replace it with the Discovery Sport.
