What is Financial Accounting 2?*

Financial Accounting 2 is an advanced level of accounting that builds upon the foundations of Accounting 1. It focuses on the preparation and analysis of financial statements for external users, such as investors, creditors, and government agencies.

Topics in Financial Accounting 2:

- Advanced financial reporting
- Consolidation and business combinations
- Investments
- International financial reporting

Number of Financial Accounting Standards:

There are over 200 financial accounting standards issued by various standard-setting bodies worldwide, such as the Financial Accounting Standards Board (FASB) in the United States and the International Accounting Standards Board (IASB).

Financial Accounting New in SAP:

SAP HANA Financial Accounting 2 (FI2) is a modern and innovative accounting solution that integrates financial data with other business processes. It offers features such as real-time reporting, advanced analytics, and simplified user interfaces.

Accounting 2 Consist of:

- Preparation of balance sheets, income statements, and cash flow statements
- Analysis and interpretation of financial information
- Accounting for consolidation and business combinations
- International accounting reporting standards

Summary of Financial Accounting:

Financial accounting aims to provide accurate and reliable financial information about a company's financial position and performance. It involves recording, classifying, and summarizing financial transactions to create financial statements that are used by both internal and external stakeholders.

4 Pillars of Financial Accounting:

- Accrual basis accounting
- Going concern principle
- Matching principle
- Consistency principle

4 Financial Accounts:

- Assets
- Liabilities
- Equity
- Revenue

4 Elements of Accounting:

- Assets
- Liabilities
- Owner's equity
- Income and expenses

Main Objective of Financial Accounting:

The main objective of financial accounting is to provide financial information that is:

- Relevant
- Reliable
- Comparable
- Consistent

Types of Financial Accounting:

- Managerial accounting
- Financial accounting
- Government accounting
- Auditing

Advantages of Financial Accounting:

- Increased credibility and transparency
- Improved decision-making
- Enhanced access to capital
- Compliance with regulations

FA2 in Accounting:

FA2 is a term used in some universities to refer to Financial Accounting 2.

Difference Between Accounting 1 and 2:

Accounting 1 focuses on basic accounting principles and the preparation of financial statements. Accounting 2 builds on this foundation and covers more advanced topics such as consolidation, investments, and international accounting standards.

IFRS S1 and S2:

IFRS S1 and S2 are two standards issued by the IASB that focus on the preparation of consolidated financial statements and the presentation of financial information in a uniform manner across different countries.

Accounting 2 Simplified for You:

Accounting 2 involves analyzing financial information to provide insights about a company's financial health and performance. It helps investors, creditors, and other stakeholders make informed decisions about the company.
