**Is Edenbrooke a clean book?** Labeled "A Proper Romance," "Edenbrooke" is the first of a new brand of romance novel by publisher Shadow Mountain, an imprint of Deseret Book, that includes clean love stories — without unnecessary bedroom scenes, sexual themes or bursting bodices.

**What is the book Edenbrooke about?** It follows the experiences of Marianne Daventry, a young lady who recently lost her mother and lives with her grandmother in Bath, England. She is invited to Edenbrooke, the vast estate of a childhood-friend of her mother. She jumps at the chance to return to the country.

**Is Edenbrooke the same as the heir to Edenbrooke?** Fate had something other than a relaxing summer in mind when it sent Marianne to Edenbrooke. The prequel novelette, *Heir to Edenbrooke*, is told from Philip's point-of-view and includes his side of the story of when he met Marianne for the first time.

**Is Edenbrooke a regency romance?** Edenbrooke hooked me from the very first page. From grand estates and elegant balls to highwaymen and sword fights, this book had all the makings of a classic Regency romance. It felt like a modern-day version of a Jane Austen novel: Austenian at its core but simpler in prose.

**What should I read if I like Edenbrooke?**

**What is there there the book about?** In *There There*, Tommy Orange traces the intersecting lives of 12 characters from Native communities whose voices and perspectives converge and conflict and reach across generations.

**What is the book the thing about?** Summary. What if aliens did actually land on Earth thousands of years ago and had frozen in the Antarctic ice? What if those aliens could take over a person's body and literally duplicate that person so completely that no one would know or could tell the difference?

---

**What is the book off the page about?** Sixteen-year-old Delilah is finally united with Oliver—a prince literally taken from the pages of a fairy tale. There are, however, complications now that Oliver has been able to enter the real world. To exist in Delilah's world, Oliver must take the place of a regular boy.
