Did Johnson ever make a 4-stroke outboard? 2002 Johnson 4-Stroke Series J10R4SN Outboard motors, Prices & Specs - J.D. Power.

Are Johnson outboards good? They are very reliable engines, I have owned 4 boats all powered by Johnson outboards and have had zero issues with them. I would say they are just as reliable as the Yamahas. However, IMO the Yamahas of the same vintage are smoother, and more efficient than the Johnsons. They are very good engines.

Are old outboards worth anything? Outboard motors, similar to wooden boats, are valued by the simple laws of supply and demand. Yet, some fairly common models like Mercury kg-7 “Super 10” and Johnson 5 hp green TD models are fairly pricey in restored condition. Some rare, often low horse power, brands like Flambeau or Elgin are easy to bargain for.

How heavy is a 4HP outboard motor?

How much fuel does a 4HP outboard use?

How many cc is a 4HP outboard?

Can you still get Johnson outboard parts? Outboard Parts Inventory MarineEngine.com keeps thousands of Johnson Evinrude parts in stock. What is the best gas for a 4-stroke boat motor? What Type of Gas Should I Use in My Boat? All current outboard, sterndrive and inboard gasoline engines are designed to operate safely on fuel with no more than 10 percent ethanol (known as E10), and under no circumstance should fuel with more than 10 percent ethanol (such as E15 or E85) be used in a marine engine.

Are 4-stroke outboards worth it? 4-Stroke Outboards Pros The fuel efficiency of a 4-stroke motor can be 50% better than that of a 2-stroke motor with the same HP. As for environmental concerns, 4 stroke outboards produce far less harmful emissions, which can be as much as 90% cleaner than those from a similar sized 2-stroke motor.

What is the easiest outboard to work on? Two-Stroke Outboard Motors: Since two-stroke engines do not include valves, their construction is simpler and many mechanics argue that they are easier to work on. Additionally, two-stroke engines offer double the power for their size due to the fact that there are twice as many strokes for each revolution.

Is a 4-stroke outboard faster than a 2-stroke? Because they have fewer parts, 2-stroke motors are generally smaller and lighter than 4-stroke motors. Lighter weight also allows 2-stroke engines to run faster. As a result, when making a 2-stroke vs. 4-stroke outboard power comparison, 2-stroke motors usually win out.

Did Suzuki make Johnson outboards? OMC struck a deal with Suzuki to supply it with four-stroke models to fill out its line. The Suzuki motors were painted and badged as Johnsons and gave OMC dealers four-strokes to sell alongside the two-stroke Evinrude models.

Did Evinrude ever make a 4-stroke outboard? The company only made two-stroke engines. The four-stroke engine was cleaner, and with emissions regulations mounting, Evinrude tried various ways to compete. Its last two-stroke E-TEC engines used direct-injection technology, making them as clean as four-strokes.

Is it worth fixing an old outboard? Deciding whether to fix up an old, tired engine best comes down to cost and how much enjoyment you hope to experience. If working on mechanical marvels floats your boat, you can save some dollars and have some fun working the Lazarus magic. But we must think again if it risks lives at sea with a dodgy rebuilt engine.

What's the best outboard motor brand? Yamaha Outboard With advanced designs, these outboard motors deliver an incredible combination of power, torque, refined performance and fuel efficiency. Built with innovative technology, Yamaha outboard motors are designed to maximize power, reliability and fuel efficiency when you're out on the water.

How do you tell the year of a Johnson outboard motor? Not sure about the year of your outboard motor? The serial number can help you determine the year of your engine. Your serial number or model number can be found on the engine's mid-section. Often this plate is also marked with the engine's year too.

How much fuel does a 4HP outboard use?

How fast will a 3hp outboard go? Also, while still able to go at speeds of up to 20 mph, an average 3 HP outboard motor weighs around 45 pounds or 20kg and requires no more than 100 hours of maintenance annually. It's also one of the most convenient engines in its class.

Is a 4-stroke outboard faster than a 2-stroke? Because they have fewer parts, 2-stroke motors are generally smaller and lighter than 4-stroke motors.
