The Truth About Alice: A Q&A with Jennifer Mathieu

Jennifer Mathieu's "The Truth About Alice" is a gripping historical thriller that sheds light on the little-known story of the girls who were institutionalized at the Texas Girls' Training School in the 1900s. Here's a Q&A with the author to delve into the inspiration and themes behind this powerful novel:

Q: What inspired you to write "The Truth About Alice"?

A: I stumbled upon an article about the Texas Girls' Training School and was shocked to learn about the horrors that occurred within its walls. I was particularly drawn to the case of Alice Glass, a young woman who escaped and tried to raise awareness of the abuse but was met with disbelief.

Q: Why is it important to tell this story?

A: This story is essential to our understanding of both the past and present. It sheds light on the systemic mistreatment of girls and women and the power that institutions can wield over the powerless. By uncovering the truth about Alice's story, we can help prevent such atrocities from happening again.

Q: What do you hope readers will take away from the novel?

A: I hope readers will gain a deeper understanding of the complexities of history and the importance of speaking out against injustice. I also want them to question the assumptions they hold about marginalized communities and the role of institutions in perpetuating inequality.

Q: How did you balance the historical accuracy with the fictional elements in the story?

A: Extensive research was crucial. I consulted historical documents, visited the site of the Texas Girls' Training School, and interviewed survivors. I aimed to create a story that was both historically accurate and emotionally resonant.

Q: What were the challenges and rewards of writing this novel?

A: The biggest challenge was finding the right balance between the darkness of the subject matter and the hope that emerged from the characters' resilience. The reward was seeing the story come to life and knowing that it had the potential to make a difference in the world.
