What builds reading comprehension? Research has shown that the simple act of reading aloud can improve your reading comprehension. How to enhance reading skills? Practise reading texts quickly: you can time yourself. For example, give yourself 3 minutes to read 300 words, then give yourself 2 minutes to read 300 words, then try in 1 minute. You can repeat this idea with the same text at first, but then try it with different texts as you get better at it. Don't freeze.

What is the trick to reading comprehension? Understanding why what you're reading is important can give you a better comprehension of what the author is trying to convey.
