Is 60% on Kaplan good? 65 is passing, over 60 is passing, and so forth. I got 62 percent on both Trainer 6 and 7. The Kaplan book says aim for over 60.

What is Kaplan pass rate?

How to pass a med-surg exam? Your brain doesn't like reading black words on a white page, so watch videos, use flash cards, take practice tests, and do whatever you can to combine your senses when you study. Practice questions are key! Make up test questions for yourself to see what you think you could be asked.

What is the hardest exam for nurses? Passing the NCLEX is essential to begin your nursing career, but it is also one of the most challenging exams you will ever take. The NCLEX is designed to test your critical thinking skills and your ability to make decisions in high-pressure situations.

Why is med-surg so difficult? It's also thought of as more strenuous than other specialties, given med-surg nursing requires a broad range of knowledge to care for patients who may have very different conditions and needs. Putting a more positive light on the specialty's reputation requires a shift within the nursing field itself, leaders say.

What happens if you fail Kaplan exam? However, in the event that you were unsuccessful in passing your exam, or simply wish to take the class again, please contact our Student Support team at 800.824. 8742. You may retake the same class, subject to the conditions described herein, within your access period.

How many times can you take the Kaplan entrance exam? Students can only take the Kaplan twice. It is our understanding that the most recent (the second, in this case) is the score that will count. Example: Student gets 72 on Kaplan first time, wants to take it again to see if they get a higher score, gets 68 second time, 68 is the score that will be used.

How long does it take to get Kaplan test results? We will send you the test outcome by email as soon as we receive it. This can be up to 5 working days from the date of your assessment.

What is the highest paying nurse? What Is the Highest Paid Nurse? The highest-paid nursing specialty is a Certified Registered Nurse Anesthetist (CRNA), averaging an annual salary of \$212,650. However, travel nurses of any specialty may be able to make close or more than that, depending on the specifics of their contracts.

How many hours do you need for med-surg certification? Holding a current med-surg nursing certification. Holding a current registered nursing license. Accruing 1,000 practice hours in a medical-surgical setting over the last five years. Earning 90 contact hours in the last five years.

Is med-surg a hard floor? It's one of the most challenging and underappreciated jobs out there. If you're a new nurse, everything is more complicated. And everything is definitely more difficult if you're a new nurse starting on a med-surg floor.

What score on Kaplan to pass NCLEX? At Kaplan, 65% correct corresponds to passing on the NCLEX exam.

Are Kaplan tests harder than NCLEX? However, the Kaplan CAT is generally considered to be more difficult than the NCLEX. This is because the Kaplan CAT covers a wider range of topics and has more challenging questions than the NCLEX. Therefore, if you are looking to prepare for the NCLEX, you may want to consider taking the Kaplan CAT first.

What happens if you fail Kaplan exam? However, in the event that you were unsuccessful in passing your exam, or simply wish to take the class again, please contact our Student Support team at 800.824. 8742. You may retake the same class, subject to the conditions described herein, within your access period.

Science Fusion: Holt McDougal Answers to Key Concepts

Chapter 1: Introduction to Science

- **Question:** What is the scientific method, and how is it used?
- **Answer:** The scientific method is a step-by-step process involving observation, hypothesis, prediction, experimentation, analysis, and conclusion. It is used to test ideas and discover new knowledge.

Chapter 2: The Nature of Matter

- **Question:** What is the difference between a physical and a chemical change?

- **Answer:** A physical change alters the form or appearance of a substance without changing its chemical composition, while a chemical change creates a new substance and involves the formation or breaking of chemical bonds.

Chapter 3: Energy

- **Question:** Explain the law of conservation of energy.
- **Answer:** The law states that energy cannot be created or destroyed but can only be transformed from one form to another. The total amount of energy remains constant in any closed system.

Chapter 4: Waves

- **Question:** Describe the properties of electromagnetic waves and how they differ from mechanical waves.
- **Answer:** Electromagnetic waves consist of electric and magnetic fields oscillating perpendicular to each other and can travel through a vacuum. Mechanical waves require a medium to travel.

Chapter 5: Earth's Systems

- **Question:** How do the biosphere and lithosphere interact?
- **Answer:** The biosphere, the living portion of Earth, interacts with the lithosphere, the solid Earth, through weathering, erosion, and the cycling of nutrients. Life processes also affect the chemical composition of the lithosphere.
