The Approval Fix: How to Break Free from People-Pleasing

Joyce Meyer, a renowned author and speaker, emphasizes the importance of breaking free from the unhealthy habit of people-pleasing. This article delves into the concept of the "approval fix" and provides practical insights into overcoming it.

What is the Approval Fix?

The approval fix is a psychological dependency on external validation. People-pleasers constantly seek the approval of others, driven by a deep-seated fear of rejection. They may compromise their own values and beliefs to gain acceptance and avoid conflict.

Why is it Unhealthy?

People-pleasing is unhealthy because it undermines self-esteem and leads to burnout. By constantly putting others' needs before their own, people-pleasers neglect their own well-being. They may experience anxiety, depression, and diminished self-respect.

How to Break Free

Breaking free from the approval fix requires a conscious effort and the development of healthy coping mechanisms. Joyce Meyer suggests:

- **Identify Triggers:** Observe your behavior and identify situations or people that trigger your need for approval.
- **Challenge Negative Thoughts:** Replace self-critical thoughts with positive affirmations. Remember your worth is not dependent on others' opinions.
- **Set Boundaries:** Learn to say no to unreasonable requests and protect your time and energy.
- **Focus on Inner Approval:** Validate yourself through your own actions and values. Find joy in who you are, regardless of external validation.

The Joy of Freedom

Overcoming the approval fix unlocks a world of freedom and joy. By breaking free from the need for constant approval, you can live authentically, pursue your dreams, and enjoy a healthier, more fulfilling life. Remember, true acceptance comes from

within, not from external sources.
