What is the difference between right of bang and left of bang? Being “right of bang” means the attack has already happened, and now you're reacting to it, scrambling in the heat of battle. Trying to strategize as bullets are flying. (Sound familiar?) But learning how to stay “left of bang” means the Marines can now become the predators, not the prey.

What does the term left of bang mean? “Left of bang” means taking a proactive approach to possible threats by making a decision based on observation and intuition to prevent the bad from happening.

How many pages is left of Bang?

What is the difference between left and right politics? The left seeks social justice through redistributive social and economic policies, while the right defends private property and capitalism. The nature of the conflict depends on existing social and political cleavages and on the level of economic development.

What should you be doing when you find yourself left of the bang? However, when you are left of bang you are able to identify some of the pre-event indicators that exist before a crime is committed and have done so with enough time to be proactive. Getting left of bang is about being able to intervene earlier on the attack timeline and prevent criminal acts from occurring.

Where did left of bang come from? Left of bang is a concept with roots in a U.S. Marine Combat Profiler training program that has been globally adopted by other training programs for people in high-risk job. The main idea behind it is that every critical incident has its' precursors, no matter how surprising and/or overwhelming it feels in the moment.

What is the right of bang? “Bang” is when shots are fired, a bomb goes off, damage is done. On a timeline, “right of bang” is after that happens where, in the worst-case scenario, you're a casualty. “Left of bang” is where you need to be—“alert, ready, prepared and able to respond before the bad stuff happens.”

What is likely happening to the right of the bang? “Left of bang” means before the bad things happen; “right of bang” means that bad things have already happened, e.g., ambush, improvised explosive device (IED), etc.
