49 Slime HS Film Forming Water Soluble Over Spray Maskant: Questions and Answers

What is 49 Slime HS?

49 Slime HS is a highly effective water-soluble film-forming overspray maskant designed to protect surfaces from paint and other overspray contaminants. It creates a temporary, protective film that is easily removed with water, leaving no residue behind.

Why use 49 Slime HS?

49 Slime HS offers several advantages, including:

- **Quick and easy application:** The sprayable formula dries quickly, allowing for immediate masking.
- **Conformable:** The film conforms to irregular surfaces, providing comprehensive protection.
- **Water-soluble:** The maskant can be easily removed with water, eliminating the need for harsh solvents or scraping.
- **Non-flammable:** 49 Slime HS is non-flammable, making it safe for use in various environments.

How to apply 49 Slime HS?

1. Clean the surface to be protected.

2. Shake the can thoroughly.
3. Hold the can 6-8 inches from the surface and spray an even coat.
4. Allow the maskant to dry for at least 10 minutes before applying paint or other coatings.

How to remove 49 Slime HS?

1. Allow the maskant to dry completely.
2. Spray water onto the surface and allow it to soak for a few minutes.
3. Use a soft cloth or brush to gently agitate the film.
4. Rinse the surface thoroughly with water to remove any remaining maskant.

Where can 49 Slime HS be used?

49 Slime HS is ideal for protecting various surfaces during automotive, industrial, and construction applications, such as:

- Automotive parts and interiors
- Equipment, machinery, and tools
- Windows and glass surfaces
- Temporary protection of exposed areas during painting or construction
