What is the message of Spirited Away? In Spirited Away, one message holds itself above all others: never forget who you are. Yubaba controls her employees by stealing their names and providing them with new ones.

Is Yubaba good or bad? While Yubaba is terrifying, she's not your archetypal villain. She's actually more of a morally gray antagonist. Miyazaki is famously known to not believe in pure good or pure evil, with all of his characters being a mix of both aspects.

What is Haku's real name? Haku is the deuteragonist of the 2001 animated Studio Ghibli film Spirited Away. He is actually a dragon, who disguises as a human boy. He is the spirit/god of the Kohaku River, as his birth name is Kohakunushi Nigihayami.

Why is No-Face obsessed with Chihiro? Presumably, the reason No-Face was so obsessed with giving Chihiro presents, is because she refused him. She refused the give-and-take necessary for a capitalistic transaction and was generous towards him instead. She also avoided consumerism by being content with what she had.

What is the age gap between Haku and Chihiro? According to Ghibli sources, Chihiro is 10 years old, Haku is about 12 or 13, Lin is about 16, Chihiro's mother is 35, and her father is 38.

But Haku admired and worshiped him because he was the first person to care for him. Moreover, Zabuza, who treated Haku as nothing more than a tool, bears no responsibility for Haku's unrequited love.

Is Haku In love With Sen? He and Sen develop a loyal and deep friendship, and love each other like brother and sister. Since Haku cannot remember who he really is, he must rely on Sen to remember, and his kindness makes her determined to do so.

Why did Kamaji say Chihiro is his granddaughter? Impressed with Chihiro's tenacity and kindness, Kamaji lies and tells Lin that Chihiro is his granddaughter. He bribes Lin to take Chihiro to Yubaba, the witch who runs the bathhouse, to ask for a job.

Why did Haku ask Chihiro not to look back? So at this last moment, he steps back into that role of advisor to say "Don't look back". It's not his rule, it's not anyone's rule – it's how this world works. We could let this go here and say, well, Chihiro is told not to look back because that's how it is in mythologies, and it's a direct reference to that.

Why does Yubaba have a giant baby? Remember that Yubaba isn't human, and neither is Boh. This may be just how their non-human biology works. When she gave birth to Boh he was a normal-sized infant, and then he grew into a giant infant, and

that's just how the aging process normally works for their species.
