Is Alex Rider rated R? Alex Rider - Great modern spy series for teens. As much as I love this show, I would recommend it for mature 11/12-year-olds or 13+. There is quite a bit of language and innuendo, as well as a party with underage drinking. The story is great, the acting is pretty good, and the cinematic quality is decent.

What happens to Alex Rider in the end? The book ends when Alex escapes and moves to San Francisco with Sabina's family, changing him forever and disallowing him to return to his spy life. *Scorpia* disbands after being beaten three times by a teenager, with most of its members being arrested and executed.
