

Albert einstein research papers

Download Complete File

How many research papers did Einstein have? Throughout his lifetime, Albert Einstein published over 300 scientific papers, and more than 150 papers on non-scientific subjects. His publications are often categorized into four major groups: journal articles, books, research materials, and personal correspondence.

What is the famous research of Einstein? Einstein's researches are, of course, well chronicled and his more important works include Special Theory of Relativity (1905), Relativity (English translations, 1920 and 1950), General Theory of Relativity (1916), Investigations on Theory of Brownian Movement (1926), and The Evolution of Physics (1938).

Where are Einstein's papers? Albert Einstein Archives refers to an archive on the Givat Ram (Edmond J. Safra) campus of the Hebrew University of Jerusalem in Jerusalem, Israel housing the personal papers of 20th century physicist Albert Einstein.

Where can I read Einstein papers? Princeton University Press proudly presents The Digital Einstein Papers, an open-access site for The Collected Papers of Albert Einstein, the ongoing publication of Einstein's massive written legacy comprising more than 30,000 unique documents.

What are the 4 papers of Einstein?

Which scientist has the most research papers? Gregory Lip — a cardiologist at the University of Liverpool — is the most-published scientist in the world, putting out more than 250 studies a year, according to calculations (requested by this newspaper) from Ioannidis. It's a rate that involves co-authoring an article every day-and-a-half, while working on weekends.

What were Einstein's last words? "I want to go when I want to go. ... Note: When Einstein died on April 18, 1955 he left a piece of writing ending in an unfinished sentence. These were his last words: In essence, the conflict that exists today is no more than an old-style struggle for power, once again presented to mankind in semireligious trappings.

Did Einstein have a PhD? Albert Einstein's career is closely linked with the city of Zurich: from 1896 to 1900 he studied physics at the Eidgenössische Polytechnikum (ETH), and in 1905 submitted his doctoral thesis to the University of Zurich. His doctorate and corresponding certificate were conferred in January 1906.

What is Einstein's IQ? Most theorists peg Einstein's IQ score between 160-190. Because he never took any kind of test to measure his intelligence, the definite score is still a mystery. But without a doubt, he was a brilliant man with an incredible brain.

Who has the most research papers?

How many papers did Einstein publish in 1905? In 1905 Albert Einstein published four groundbreaking papers that revolutionized scientific understanding of the universe.
