It should be long enough to provide a comprehensive overview of the documentary's narrative structure, themes, and key elements, yet concise enough to maintain the reader's interest.

**How is documentary film structure?** The Three-act Structure is a classic storytelling model that divides your documentary into three parts: Act 1 (Setup), Act 2 (Development), and Act 3 (Climax & Resolution). Each part has its own set of goals, which will help you map out the structure of your documentary.

**How do you write a documentary film concept?** Just like the script for a fiction film, narrative, structure, character and plot are the essential components of your documentary film. ## **How do you structure a proposal?**

**What is a typical documentary film budget?** Documentary budgets can range from \$30,000 to \$1.5 million, depending on the film's duration, scope, and experience of creative team/crew. In some rare instances deferments are essential to start filming or capture respective core elements of the story before the Production Company has received any funds.

**How much should I charge to film a documentary?** For documentary film-making at the lowest-budget level, '\$1000 per finished minute' is the cheapest starting point for costing. We recommend using \$2000 – \$4000 per finished minute as a beginning point or ball park. And you should expect that even a 'simple film' may cost more. Why?

**Is it profitable to make a documentary?** Only 20% of documentary filmmakers say their most recent film made enough revenue to make a profit, and 4 in 10 nonfiction storytellers (40%) said their film did not make any revenue at all.

**Can you submit a documentary to Netflix?** First and foremost, thank you for your interest in Netflix content! Unfortunately, we cannot and do not accept or review any materials (whether manuscripts, treatments, scripts, drawings, ideas, pics of rainbow-colored unicorns, etc.) that we do not specifically request.

**How do you pitch a documentary for funding?** The pitch should begin with a strong opening that immediately captures the attention and establishes the subject matter of the documentary. The pitch should also include a detailed synopsis that outlines the narrative or themes of the documentary and identifies the target audience.

## **How do you plan a documentary?**

**How to write an idea for a documentary?** A good idea for a documentary resonates profoundly with both the filmmaker and the audience, offering a unique perspective or insight into a subject. The ideal topic should be engaging, informative, and capable of sparking curiosity or emotional response.

**How do you structure a documentary story?** For the beginning, your goal is to introduce your main characters and setting, and set up the conflict that will drive the rest of the film. In the middle, you'll explore the conflict in more depth, and introduce new characters and subplots. And for the end, you'll resolve the conflict and tie up all of the loose ends.

**How do I submit a documentary proposal to Netflix?** If you have an idea, game, script, screenplay, or production already in development that you'd like to pitch to Netflix, you must work through a licensed agent, producer, attorney, manager, or industry executive, as appropriate, who already has a relationship with Netflix.
