

# 2756079332 fr4

## [Download Complete File](#)

### Understanding the Significance of 2756079332 FR4

#### What is 2756079332 FR4?

2756079332 FR4 is a specific grade of fire-retardant (FR) epoxy glass laminate material commonly used in the manufacturing of printed circuit boards (PCBs). It meets the flammability requirements of UL94 V-0, indicating it will self-extinguish within 10 seconds when ignited.

#### Why is 2756079332 FR4 Different from Standard FR4?

Standard FR4 is not specifically designed to meet UL94 V-0 flammability standards. 2756079332 FR4 contains additional flame retardants that enhance its fire-resistant properties, making it ideal for applications where high-temperature exposure is anticipated.

#### What are the Advantages of Using 2756079332 FR4?

2756079332 FR4 offers several benefits, including:

- Excellent fire resistance, meeting UL94 V-0 standards
- High electrical insulation properties
- Low moisture absorption, ensuring reliability in humid environments
- Good mechanical strength for demanding applications

#### Where is 2756079332 FR4 Commonly Used?

2756079332 FR4 is widely used in electronic devices where fire resistance is critical, such as:

- Aerospace and military applications
- Medical equipment
- Industrial control systems
- High-power electronics

## How to Specify 2756079332 FR4

To specify 2756079332 FR4, you need to indicate the material grade, thickness, and any additional requirements in your PCB design specifications. This ensures that the fabricator uses the correct material for your specific application.
