40 TOGAF 9.1 Certification Level 2 Practice Scenarios: Volume 1

The TOGAF 9.1 Certification Level 2 exam tests candidates' ability to apply TOGAF principles and techniques to real-world enterprise architecture scenarios. To prepare for the exam, candidates can benefit from practicing with sample questions. Here is a sample question and answer from the "40 TOGAF 9.1 Certification Level 2 Practice Scenarios: Volume 1" publication:

Question 1:

An organization is undergoing a major transformation and has decided to adopt TOGAF to guide its enterprise architecture. Which of the following is the first step the organization should take?

Answer:

Establish the Enterprise Architecture Framework Team (EAF Team)

Question 2:

The organization has established the EAF Team and has begun to develop its Strategic Architecture. Which of the following techniques is most appropriate for identifying stakeholders and their needs?

Answer:

Stakeholder Identification and Analysis

Question 3:

The organization has completed its Strategic Architecture and is now developing its Business Architecture. Which of the following is the primary purpose of the Business Architecture?

Answer:

To define the business capabilities and processes that support the organization's strategic objectives

Question 4:

The organization is developing its Technology Architecture and has identified a number of potential candidate solutions for a new IT system. Which of the following criteria should be considered when evaluating the candidate solutions?

Answer:

All of the above

Question 5:

The organization has completed its Enterprise Architecture and has begun to implement it. Which of the following tools is most appropriate for monitoring the progress of the implementation?

Answer:

Architecture Repository Tool

These practice scenarios are designed to help candidates prepare for the actual exam by providing them with a variety of questions that cover all aspects of the TOGAF 9.1 framework. By working through these scenarios, candidates can improve their understanding of TOGAF and its application in real-world scenarios, increasing their chances of success on the exam.
