AND

discreet orthodontic treatment.

How does TSD work?

TSD involves a series of custom-designed clear aligners, each slightly different from the last. Patients wear each aligner for approximately two weeks, gradually shifting their teeth into the desired position. The aligners are removable, allowing patients to maintain good oral hygiene.

What are the advantages of TSD?

- **Invisibility:** TSD aligners are virtually invisible, preserving the patient's natural smile during treatment.
- **Comfort:** The aligners are made of a soft and transparent material, making them comfortable to wear.
- **Removable:** Patients can remove the aligners for eating, drinking, and special occasions.
- **Shorter treatment times:** TSD typically requires less treatment time compared to traditional braces.
- **Improved oral health:** The removable aligners allow for easier brushing and flossing, promoting better oral hygiene.

Who is a good candidate for TSD?

TSD is suitable for individuals with mild to moderate tooth misalignment. It is not recommended for complex orthodontic cases that require extensive movement. Your dentist will evaluate your teeth and determine if TSD is an appropriate treatment option for you.

How much does TSD cost?

The cost of TSD varies depending on the complexity of the case and the number of aligners required. Consult with your dentist for a personalized treatment plan and cost estimate.
