What are the 7 S in forensics?

What are the 7 steps of forensic science?

What is the concept of forensic medicine? Forensic medicine mainly deals with examination and assessment of individuals who have been—or are suspected to have been—injured or killed by external influence such as trauma or intoxication, but also of individuals who are suspected of having injured another person.

What is the first principle of forensic science? This principle is generally summed up by stating: “Every contact leaves a trace.” The logic behind this principle allows investigators to link suspects to victims, to physical objects, and to scenes. Any evidence that can link a person to the scene is referred to as associative evidence.

Why are the principles of forensic science important? These principles of forensic science lay the foundation for the subject. With these, you learn the significance physical evidence holds, how to collect the right evidence from the crime scene, preserve it accurately, and transport it to the laboratory to get the best results out of the forensic examination.

What is the golden rule of forensics? The Golden Rule of Criminal Investigation The criminal investigator must have to bear in mind the golden rule in investigation stated as: “Do not MAC” “Thou shall not touch, move nor alter any thing in the crime scene unless it is properly photographed, measured and sketched or otherwise preserved as not to destroy or ...

What is the 4R rule in forensics? The ridges (Wallner lines) on radial cracks nearest the point of impact are at right angles to the side opposite, or to the rear, of the impact. This phenomenon is referred to as the 4R rule, (Ridges on Radial cracks are at Right angle to the Rear.)

What is the Puppe's rule in forensic medicine? Puppe's rule applies when two blunt force injuries with intersecting fractures are visible. It states that the fractures from the first injury develop normally, while those caused by the subsequent injury are stopped where the structure of the skull has already been deployed.
