Drawing on new interviews and more than two hundred pages of previously unpublished letters to and from Gehrig, Luckiest Man gives us an intimate portrait of the man who became an American hero: his life as a shy and awkward youth growing up in New York City, his unlikely friendship with Babe Ruth (a friendship that ...

When did Lou Gehrig give his farewell speech? It's been 84 years since Lou Gehrig stood on the field at Yankee stadium and delivered his "Luckiest Man" speech before leaving the game he loved. But unless you were present in the Yankee Stadium on July 4, 1939, you've probably never heard it in its entirety.

What did Babe Ruth whisper to Lou Gehrig? He had gone over, put one of those big arms around Gehrig's shoulders and patted Lou once or twice, trying to get him to stifle the emotion which had broken him up right out there on the ball field. "C'mon, kid," the Babe whispered through his tears. "C'mon, kid, buck up now. We're all with you."

Why did Gehrig and Ruth not get along? The "feud" between Gehrig and Ruth is often simplistically attributed to a dispute arising from Mom Gehrig's offhanded comment about Claire Ruth not dressing her stepdaughter, Dorothy, as nicely as her biological daughter, Julia. It was on July 4, 1939, Lou Gehrig Appreciation Day, when the longtime Yankee first baseman uttered the famous words at a home plate ceremony at Yankee Stadium: "For the past two weeks you have been reading about a bad break. Yet today I consider myself the luckiest man on the face of the earth."

What is the main idea of Lou Gehrig's speech? In Gehrig's case, the subject of his speech is a surprise: he is talking about how lucky he is. He uses this subject to address the larger topic of his illness: by shifting the focus from his struggle to his

blessings, he demonstrates the attitude he wants to show, rather than talking about it directly.

What did Lou Gehrig suffer from? Amyotrophic lateral sclerosis (ALS) is commonly known as "Lou Gehrig's disease," named after the famous New York Yankees baseball player who was forced to retire after developing the disease in 1939.

What is the book about the boy who thought he was Lou Gehrig? Cathy Haupt believes so strongly that her son was Gehrig in a past life that she's written a book about his experience.
