2G Case: A. Raja and Kanimozhi Acquitted

What is the 2G case?

The 2G case refers to the allocation of 2G spectrum licenses by the then-Minister of Telecommunications, A. Raja, in 2008. The Central Bureau of Investigation (CBI) later alleged that the licenses were allocated at below-market prices, resulting in a loss of revenue to the government.

Who were the accused in the case?

Former Telecommunications Minister A. Raja and DMK leader Kanimozhi were among the 19 accused in the case. They were charged with criminal conspiracy, cheating, and corruption, among other offenses.

What was the verdict of the court?

On December 21, 2021, a special CBI court in New Delhi acquitted A. Raja, Kanimozhi, and all other accused in the 2G case. The court held that the prosecution failed to prove the charges against them beyond a reasonable doubt.

What were the reasons for the acquittal?

The court found that the CBI did not provide any evidence to support the allegations of criminal conspiracy or corruption. It also noted that the prosecution's case was based solely on circumstantial evidence, which was insufficient to convict the accused.

What are the implications of the verdict?

The acquittal of A. Raja and Kanimozhi has sparked mixed reactions. Some legal experts have welcomed the verdict as a triumph of justice, while others have questioned the reliability of the prosecution's evidence. The verdict has also had political ramifications, with the DMK party hailing it as a vindication of their leader Kanimozhi. It is important to note that the verdict can still be appealed by the CBI or the government.
