The Trick Is to Keep Breathing: An Interview with Janice Galloway

Janice Galloway is a Scottish novelist and short story writer known for her evocative and often haunting prose. Her work has been praised for its lyricism, psychological depth, and unflinching exploration of human experience.

What do you think is the most important thing to remember when writing fiction?

The most important thing to remember when writing fiction is to keep breathing. This may sound like a strange thing to say, but it's true. When you're writing, you can get so caught up in the story that you forget to breathe. And when you forget to breathe, your writing suffers.

What are some of the challenges you face when writing?

One of the biggest challenges I face when writing is finding the right words. I want my words to be precise and evocative, but I also want them to be beautiful. It's a difficult balance to strike, but it's one that I'm always striving for.

What advice would you give to aspiring writers?

My advice to aspiring writers is to keep reading and keep writing. The more you read, the more you'll learn about the craft of writing. And the more you write, the better you'll become at it. Don't be afraid to experiment and find your own voice.

What do you think is the most important thing for readers to take away from your work?

I hope that my work helps readers to understand the human condition. I want them to see that we're all capable of both great love and great cruelty. And I want them to

remember that even in the darkest of times, there is always hope.

In your novel "The Trick Is to Keep Breathing," the protagonist, Janice, struggles with mental health and self-destructive behaviors. What inspired you to write about this topic?

I was inspired to write about this topic because it's something that I've struggled with myself. I know how difficult it can be to live with mental health issues, and I wanted to share my experiences with others in the hopes that it might help them feel less alone.
