How does a hedge fund work for dummies? Hedge funds use pooled funds to focus on high-risk, high-return investments, often with a focus on shorting — so you can earn profit even when stocks fall.

What the heck is a hedge fund? A hedge fund is a limited partnership of private investors whose money is pooled and managed by professional fund managers. These managers use a wide range of strategies, including leverage (borrowed money) and the trading of non-traditional assets, to earn above-average investment returns.

What are hedge funds in simple terms? Hedge funds are financial partnerships that employ various strategies in an effort to maximize returns for their investors. Unlike mutual funds managers, hedge fund managers have free reign to invest in non-traditional assets and employ risky strategies.
