These workflow columns are placed in chronological order from left to right across the board, where cards can be added or moved from column to column.

Is project management remote work? Project managers coordinate every aspect of a client's or a company's projects from development through implementation. Most (if not all) project management tasks can be done from home, which makes this career path ideal for remote work.

Solved: Unknown Device USB Barcode Scanner Issue

Question: I've connected my USB barcode scanner to my computer, but it's showing up as an "Unknown Device" in Device Manager. What should I do?

Answer: This issue usually occurs when the correct drivers are not installed for the scanner. Follow these steps to resolve it:

1. Check Compatibility and Driver Availability: Ensure that your scanner is compatible with your computer and that there are available drivers for your operating system. Visit the manufacturer's website to confirm compatibility and download the latest drivers.

2. Install the Drivers: Run the downloaded driver installation file. Follow the on-screen prompts to complete the installation process. Once the drivers are installed, restart your computer.

3. Check Device Manager: After restarting, open Device Manager and check if the scanner is now recognized. If it's still showing as "Unknown Device," proceed to the next step.

4. Update USB Drivers: In Device Manager, expand the "Universal Serial Bus controllers" category. Right-click on the "USB Root Hub" and select "Update Driver." Follow the prompts to install any available updates for the USB drivers.
