**Is the broken spears the aztec account of the conquest of mexico a secondary source?** Written by Miguel León-Portilla, it translates the Tlatelolco Codex believed to be written by various Nahuatl people from Mesoamerica. As Tlatelolco Codex translates the work and includes an analysis of the text, it is a secondary source.

**What was the purpose of the Aztec account of the conquest of Mexico?** The Aztecs, a nation possessing an intricate culture and complex political organisation, were destroyed and plundered beyond all recognition. In this book, Mexican anthropologist Miguel León-Portilla aims to show the invasion of Mexico by the Spaniards in 1519 from the point of view of the native Aztecs.

**Why is the Broken Spears important?** Because Broken Spears collects some of the earliest examples of Mexican literature, it provides an invaluable foundation for modern-day Mexicans in reconstructing their national identity. Moreover, the themes of the Nahuatl narratives are still relevant today.

**What is the summary of the Broken Spears?** The Broken Spears, by Miguel León-Portilla, is an all-inclusive and compelling account of the Spanish conquest, told by the Aztecs also known as the conquered. León-Portilla's choice of events depicted in this book collides together giving the reader a broad view of the Spanish conquest.

**What is the thesis of the Broken Spears?** The author argues that the Spaniards were completely at fault for the total destruction of the Aztec Empire. In Broken Spears, the author explains how many factors other than Spanish power contributed to the downfall of the Aztecs.

**What does the broken spear mean?** Though the spear, the spearhead and the broken spear are all very similar symbols, they each have a distinct symbolic meaning. The spear, lance or tilting-spear is an emblem of knightly service and devotion to honor and chivalry. The broken spear is a symbol of peace.

**Did the Aztecs think Cortes was a god?** Among both Aztecs and Tlaxcalans Cortés was seen as powerful and cruel maybe, but not very noble and even less godlike, and (unlike all Mexican gods) rather ignorant of calendars, distant time and the origins of life. 100% dependant on Malinche, he was seen as her lieutenant (and she more of a general).

**How many Aztecs were killed by the Spanish?** It will never be definitively determined how many Aztecs were killed by the Spanish, but it is estimated that they killed as many 200,000 people during the Battle of Tenochtitlan alone. If European borne diseases are included, the death count could go as high as 20 million people.

**Why did the Aztecs use spears?** Another common ancient Aztec weapon was the spear. These spears were known to pierce the Spanish armour, and were sharp enough that the warriors could use them to shave. They are called tepoztopilli. Spears were used in Mexico long before the Aztec empire.

**Who wrote The Broken Spears?**

Three elegies on the fall of Tenochtitlán are included and, on finishing the book, we can respond empathically with the scribe who wrote: "Broken spears lie in the roads; we have torn our hair in grief. The houses are roofless now, and their walls are red with blood." The Aztec glory was gone.

**Who was involved in the conquest of the Aztecs?** Hernándo Cortés, Spanish conquistador who conquered Mexico, with Moctezuma II, last Aztec emperor, 1519.
