### **Training Calendar 2017-18: A Comprehensive Guide to Effective Management**

#### **Q1: What is a training calendar and why is it important?**

A training calendar is a comprehensive plan that outlines the upcoming training and development opportunities within an organization. It serves as a vital tool for managing employee training programs effectively by providing a structured schedule and facilitating coordination among stakeholders.

#### **Q2: How should a training calendar be structured?**

A training calendar should include the following key elements:

- Course name and description
- Target audience
- Training dates and times
- Location
- Instructor information
- Registration and enrollment procedures
- Evaluation metrics

#### **Q3: Who is responsible for managing the training calendar?**

Typically, the responsibility for managing a training calendar falls within the HR department or a dedicated training manager. Their role includes coordinating with

trainers, designing and distributing training materials, tracking employee attendance, and evaluating the effectiveness of training programs.

#### **Q4: What are the benefits of using a training calendar?**

A well-managed training calendar offers numerous benefits, such as:

- Improved planning and organization
- Enhanced employee development
- Increased productivity
- Reduced costs due to efficient resource allocation
- Improved compliance with industry regulations

#### **Q5: How can I access the training calendar for 2017-18?**

Most organizations provide employees with access to the training calendar through internal intranet portals or email notifications. If you do not have access to your organization's training calendar, please contact your HR department or supervisor for assistance.

## **WIPNEUS EN PIM: EEN KINDERBOEKENREEKS MET BELANGRIJKE THEMA'S**

De kinderboekenreeks WIPNEUS EN PIM van Bianca Mastenbroek behandelt op een speelse en toegankelijke manier belangrijke thema's zoals vriendschap, acceptatie en zelfvertrouwen.

### **Wie zijn WIPNEUS en PIM?**

WIPNEUS is een vrolijk en energiek monstertje met een neus die altijd blijft groeien. PIM is een slim en behulpzaam jongetje dat graag muziek maakt. Samen beleven ze avonturen die jonge lezertjes helpen bij het ontwikkelen van sociaal-emotionele vaardigheden.

### **Welke thema's worden behandeld?**

De WIPNEUS EN PIM-boeken behandelen verschillende thema's, waaronder:

- **Vriendschap:** De sterke band tussen WIPNEUS en PIM laat zien hoe belangrijk vriendschap is.
- **Acceptatie:** WIPNEUS wordt vaak gepest om zijn lange neus, maar hij leert om zichzelf te accepteren met de hulp van PIM.

- **Zelfvertrouwen:** PIM is eerst onzeker over zijn muziektalent, maar WIPNEUS helpt hem om te geloven in zichzelf.
- **Emotieregulatie:** De boeken helpen kinderen om hun emoties op een gezonde manier te begrijpen en uiten.

### **Wat zijn de voordelen van het lezen van deze boeken?**

Het lezen van de WIPNEUS EN PIM-boeken kan kinderen helpen met:

- Het ontwikkelen van empathie en respect voor anderen.
- Het opbouwen van hun zelfvertrouwen en gevoel van eigenwaarde.
- Het leren omgaan met uitdagingen en tegenslagen.
- Het begrijpen en uiten van hun emoties.

### **Waar zijn de boeken verkrijgbaar?**

De WIPNEUS EN PIM-boeken zijn verkrijgbaar bij online boekhandels en in fysieke boekwinkels. Daarnaast is er een app beschikbaar met interactieve verhalen en spelletjes voor jonge lezers.

**What maintenance does a WaveRunner need?** Keep your WaveRunner ready to run with basic maintenance like: Changing engine oil every 50 hours. Flushing regularly. Maintaining your battery to prevent corrosion.

**How often should you change spark plugs in a Yamaha WaveRunner?** It's recommended that spark plugs be changed once a year. They are not expensive at all as they only cost about \$2.00 apiece, which makes them a small investment for keeping your jet ski working at its best.

**How often should you change your oil in a WaveRunner?** Oil typically needs to be changed every 50 hours or annually depending on how long your riding season is. The average person puts 30 to 50 hours a year on their PWC which would require an annual oil change. If you live somewhere that gets cold, you'll also need to do a winterization service.

**How many hours can you put on a Yamaha WaveRunner?** A well taken care of engine that had not been abused, and has been used in freshwater only, will last

1500 hours or more. If this is a waverunner you are thinking about purchasing have a mechanic do a compression test on the engine. Compression is directly related to engine life.

**What is the life expectancy of a WaveRunner?** Running Hours Taking the Jet Ski to a mechanic and running the diagnostics is the last resort, as it can be costly. Since the average lifetime of a Jet Ski engine is 300 hours, anything above 100 hours is considered high mileage.

**What not to do on a WaveRunner?**

**How do I know if my jet ski spark plugs are bad?**

**How long can you run a Yamaha Waverunner without water?**

**Why do jetski engines only last 300 hours?** It's possible for a jet ski engine to exceed 300 hours if the previous owner took good care of the machine. Similarly, it's possible for an engine to die after less than 300 hours of ride time if the previous owner treated the machine poorly.

**Should I wax my Waverunner?** The wax will function to shield your jet ski from sunlight damage, and grime build-up, salt. Waxing your craft at the start of the season and before you shop it will be kept by it in great form. With just a little patience and the right products, you can clean your jet ski and make it ready for your next adventure!

**What is high hours on a waverunner?** A Jet Ski or a Sea-Doo are brand names of PWC, and the average person puts around 30 hours a year on their machine. A low-hour ski is a machine that has been used for less than 50 hours, while 150 hours or more of use is considered high. If a PWC is 5 years old, you should expect it to have roughly 150 hours logged.

**Are waverunners high maintenance?** Jet skis and waverunners do not require as much servicing as cars or boats, but they do need some.

**Is it OK to run WaveRunner out of water?** To keep your engine, exhaust and other components cooled and running properly, never run your craft out of the water. And when in the water, never start your craft in less than three feet of water depth.

---

**Is 200 hours a lot for a jet ski?** The average lifespan of a Jet Ski is 300 hours. But usage alone isn't the only factor you should consider when buying a used Jet Ski. A well-maintained Jet Ski that's seen 200 hours on the water could be in better shape than a poorly maintained Jet Ski used for 30 hours.

**What is the most reliable jet ski?** #1: Sea-Doo If you're looking for one of the top jet ski brands, Sea-Doo will almost always grace the top of any best-of list, even though it technically isn't a jet ski. At any rate, Sea-Doo is known for producing some of the most innovative and uniquely designed PWCs on the market.

**Are WaveRunners high maintenance?** Jet skis and waverunners do not require as much servicing as cars or boats, but they do need some.

**Do jet skis take a lot of maintenance?** For optimum performance, jet skis require annual maintenance such as oil and filter changes, pump oil draining and replacing, greasing seals and bearing fittings, and lubricating parts.

**How often do you need to service a jet ski?** Your Sea-Doo maintenance should include oil changes, and these occur every 50-100 hours (after the 10-15hrs first service), or after one year of use (whichever comes first) . Sea-Doo SPARK can continue for 100 hours, while all other models need an oil change after 50.

**What does a jet ski tune up consist of?** What does a jet ski tune up consist of? A jet ski tune-up typically involves changing the engine oil and oil filter, replacing spark plugs, lubricating moving parts, and applying grease to seals and bearings.
