#### ¿Cuáles son algunas posturas básicas de yoga para principiantes?

- **Postura de la montaña (Tadasana):** Párate con los pies separados a la altura de las caderas, los dedos de los pies hacia adelante. Alarga tu columna vertebral, mete el abdomen y relaja los hombros.
- **Postura del árbol (Vrksasana):** Párate en Tadasana, dobla la rodilla derecha y coloca el pie derecho en la parte interna del muslo izquierdo. Extiende los brazos hacia arriba.
- **Postura del niño (Balasana):** Arrodíllate con las rodillas separadas a la altura de las caderas y los dedos de los pies apuntando hacia atrás. Inclínate hacia adelante y apoya la frente en el suelo.

#### ¿Cómo puedo respirar correctamente durante el yoga?

Durante el yoga, la respiración es esencial. Respira profundamente por la nariz y exhala por la boca. Concéntrate en tomar respiraciones lentas y controladas.

#### ¿Cuánto tiempo debo mantener cada postura?

Comienza manteniendo cada postura durante unos 5-10 segundos. A medida que desarrolles fuerza y ??flexibilidad, puedes aumentar gradualmente el tiempo.

### **¿Cómo puedo evitar lesionarme durante el yoga?**

Escucha a tu cuerpo y descansa cuando lo necesites. Respeta tus límites y evita pujar o forzarte en las posturas. Si experimentas algún dolor, detente y consulta con un instructor certificado.

## **Who Gets What and Why: The New Economics of Matchmaking and Market Design**

In an increasingly interconnected world, matchmaking and market design have become essential tools for efficiently allocating resources and maximizing outcomes. The new economics of these disciplines seek to understand the factors that determine who gets what and why, and to develop algorithms and mechanisms that optimize these outcomes.

### **What is Matchmaking and Market Design?**

Matchmaking is the process of connecting individuals or organizations with compatible goals or needs. Market design is the study of how markets can be structured to maximize efficiency and fairness. Together, these disciplines aim to improve the outcomes of matching processes, such as job placements, organ donations, and school assignments.

### **Why is it Important?**

Matchmaking and market design play a crucial role in shaping the distribution of resources in society. By improving the efficiency of matching, we can reduce waste, increase productivity, and improve the overall well-being of individuals. For example, optimizing job placements can lead to better career outcomes, while improving organ donation systems can save more lives.

### **Who Gets What?**

The outcome of a matchmaking process depends on a variety of factors, including the preferences of the participants, the constraints of the system, and the algorithm

used to make the matches. For instance, in a job market, the best candidates for a particular position will receive offers based on their qualifications and the employer's preferences.

### **Why Do They Get It?**

The reasons why individuals or organizations get what they do are often complex and multifaceted. In the case of matchmaking, the driving forces may include compatibility, efficiency, fairness, and strategic behavior. For example, a job candidate may get an offer because they are the most qualified, or because the employer is seeking to diversify their workforce.

### **Conclusion**

Matchmaking and market design are powerful tools for improving the efficiency of resource allocation and maximizing societal outcomes. By understanding the factors that determine who gets what and why, we can develop innovative algorithms and mechanisms that lead to more equitable and effective matching processes. As these disciplines continue to evolve, they will play an increasingly important role in shaping the future of society.
