The details in the story and knowledge of the era in which the story occurs makes the book one that holds powerful implications for today's reader.

**What is the message of Mississippi Burning?** The film characterizes African Americans in Mississippi as passive victims of racist violence who simply cower or kneel in prayer whenever they are attacked. For example, the film depicts an evening gathering at an African American church. As the participants leave the church, they are brutally beaten by Klansmen.

**Is Mississippi Burning based on a true story?** Set in Mississippi in 1964, this controversial film is based on the true story of the case of three young civil rights workers (in real life they were named James Earl Chaney, Andrew Goodman, and Michael Schwerner) who were brutally murdered in June of 1964.

**What is the plot of Mississippi Burning?**

**What happens at the end of Mississippi Burning?** In the concluding scene of Mississippi Burning, as Lannie McBride and the congregation stand amongst the

ashes of Mount Zion Church singing 'Walk On By Faith', the camera pans across a Mississippi cemetery coming to rest at the grave of a young black, civil rights worker murdered in the opening sequence of our film.

**Is Mississippi Burning a documentary?** Mississippi Burning is a 1988 American crime drama film loosely based on the FBI investigation into the real-life murders of three civil rights workers in a Klan-dominated town of the state of Mississippi in 1964.

**What is the plot of Mississippi Burning?**

**What is the main idea of the poem burning a book?** Beyond the obvious theme of censorship due to book burning, Stafford's major thematic claim lies in the notion that, while burning books has a complex and sordid history, not speaking out to share and gain knowledge (and therefore, create more books) is much worse.

**What is the message of life on the Mississippi?** Part memoir and part fiction, Life on the Mississippi reflects themes of change and progress, both culturally and technologically. Two other strong themes are the power of observation and the value of travel as a learning experience.

**What is the plot of the book burned?** Pattyn experiences the first stirrings of passion, but when her father catches her in a compromising position, events spiral out of control. Pattyn is sent to live with an aunt in the wilds of rural Nevada to find salvation and redemption.

**How do you write fun in Python?** Creating a Function in Python. When declaring a function in Python, the 'def' keyword must come first, then the function name, any parameters in parenthesis, and then a colon. The code that needs to be run is indented in the function body. The 'return' statement is optional for a function to return a value.

**Can you make an interactive plot in Python?** They have also released the free and open-source plotting library “Plotly” for Python, R, MatLab, and Julia. Plotly produces interactive graphs, can be embedded on websites, and provides a wide variety of complex plotting options.

**Can you make clickable text in Python?** Not possible. A csv file is just a text file with comma delimited data. Text files do not support hyperlinks. Instead, you could create a table in markdown (which does support hyperlinks), using pandas.

**How to code a choose your own adventure in Python?** With Python you can write a choose your own adventure story by using the input() function to ask the reader what they want to do next and then using the if statement to give them different options depending on what they choose.

**How do you create a text prompt in Python?** In Python, we use the input() function to ask the user for input. As a parameter, we input the text we want to display to the user. Once the user presses “enter,” the input value is returned. We typically store user input in a variable so that we can use the information in our program.

## **Unit 1 Phonetics: English for Undergraduates**

### **1. What is phonetics?**

Phonetics is the scientific study of speech sounds. It investigates how sounds are produced, perceived, and used in language. Phonetics is divided into three main branches:

- **Articulatory phonetics:** Studies the physical production of speech sounds, including the movement of the vocal cords, tongue, and lips.

- **Acoustic phonetics:** Studies the physical properties of speech sounds, such as their frequency, amplitude, and duration.
- **Auditory phonetics:** Studies how speech sounds are perceived by the human ear and brain.

## 2. What is the International Phonetic Alphabet (IPA)?

The International Phonetic Alphabet (IPA) is a standardized system of symbols that represents speech sounds. Each symbol represents a specific sound, regardless of the language in which it is used. The IPA is widely used by linguists, phoneticians, and language teachers.

## 3. What is the difference between phonemes and allophones?

- **Phonemes:** The smallest units of sound that distinguish words in a language. Phonemes are represented by IPA symbols. For example, the English words "cat" and "cot" are distinguished by the phonemes /k/ and /t/.
- **Allophones:** Variants of a phoneme that occur in different contexts. Allophones are not distinctive in the language. For example, the /t/ sound in English can be pronounced with or without aspiration (a puff of air), depending on its position in the word.

## 4. What are the main types of speech sounds?

Speech sounds are classified into two main types:

- **Vowels:** Sounds produced with a relatively open vocal tract, allowing for a clear resonance. Examples include the sounds /a/, /e/, and /i/.
- **Consonants:** Sounds produced with a relatively closed vocal tract, causing some form of obstruction. Examples include the sounds /p/, /b/, and /s/.

## 5. How is phonetics used in language learning?

Phonetics plays a crucial role in language learning by:

- Helping learners to understand the correct pronunciation of words.

- Improving listening comprehension by training the ear to recognize different speech sounds.
- Facilitating the development of speech fluency by teaching learners how to produce sounds naturally and accurately.
