inglese e una per la seconda lingua comunitaria e accerta le competenze di comprensione e produzione scritta.

Come funziona la scuola media in Francia? Il collège (la scuola media) dura quattro anni (sesta, quinta, quarta e terza) e si conclude con il primo esame ufficiale: il diploma nazionale del Brevet. In sesta, gli alunni cominciano in particolare lo studio della loro prima lingua viva.

Quante ore si fanno di francese alle medie?

How many quarts of oil does a 1981 Porsche 911 SC take? The oil pan should be capable of holding about nine quarts of oil.

How do you adjust the mixture on a Porsche 911 SC? MAINTENANCE AND ADJUSTMENT The mixture can be adjusted by turning a small hex screw that is located in-between the fuel distributor and the sensor plate. Use a long hex key, or the special mixture adjustment tool to turn the screw. The screw is indexed so that it should click when you rotate it.

What does SC stand for in Porsche 911 SC? The 911 SC (Super Carrera) took the place of the 911 and Carrera models. As of model year 1984, the SC version was again replaced by the 911 Carrera.

What is the top speed of the 1978 Porsche 911 SC? It does the quarter-mile in 14.8 seconds at 94 miles per hour, and the top speed at 136. The car is remarkably quiet at cruising speed.

What oil does Porsche recommend for 911? Porsche and the Mobil 1™ team collaborate in a partnership based on delivering optimum performance for a truly outstanding driver experience.

What is the recommended oil change for Porsche 911? How often does a Porsche 911 need an Oil Change? An oil change is one of the most specific and extraordinary services for your car. Synthetic oil generally should be changed every 7,500 - 10,000 miles. Porsche recommends getting your Porsche 911 oil & filter changed every 3,000-5,000 miles for conventional oil.

How do you adjust fuel air mixture?

How do you fix rich air fuel mixture?

How do you check the oil level on a Porsche 911 SC?

How many Porsche 911 SC were made? Only 266 of these now-classic special cars were built. During its production run between 1978 and 1983, 911SC sales totaled nearly 59,000 units - not bad for a model that was destined for the chopping block immediately following its release.

Why is it called the Widowmaker Porsche? It acquired the nickname "the Widowmaker" after several crashes and deaths attributed to its handling characteristics, which were unfamiliar to many drivers. Under certain conditions, applying too much throttle would cause the heavy rear end of the car to swing outward like a pendulum, causing the car to spin out.

How fast is a 911 SC? Zero-to-60 takes 6.0 seconds flat, top speed is 130 mph, and overall mileage, even figuring in plenty of hard beating through the boondocks, runs out at 16 mpg.

How much horsepower does a 83 911 SC have? Displacement: 3.0 liters. Induction: Naturally aspirated. Output: 180 horsepower. Torque: 175 lb-ft.

What is the slowest Porsche 911?

How much does a 911 SC weight? Curb Weight 2,756 lbs.

Why is it so expensive to change the oil in a Porsche? Porsche oil changes will cost more than most other brands out on the road today. One reason for that is the fact that these vehicles run on synthetic motor oil instead of conventional oil. Additionally, you will need a filter ring for a successful oil change for these vehicles.

What kind of oil does a 1978 Porsche 911 take? 20W-50 for 356, 914 and early 911 models Porsche recommends the multigrade variant with a viscosity of 20W-50 for all 356, 914 and 911 models (up to 2.7 liters).

What is the best oil for a classic 911? Porsche Classic Motoroil 20W-50. For all 356, 914 and 911 models up to the 2.7-litre G-Model, Porsche recommends the multi-grade version with a viscosity of 20W-50.

How often do you have to change the oil in a Porsche? However, as a general rule, it's recommended that you change your Porsche's oil every 7,500 miles or once a year, whichever comes first. This applies to both new and used Porsches. You may need to change the oil frequently if you drive your Porsche more aggressively or in harsher conditions, such as hot climates.

How often should a Porsche 911 be serviced? Porsche services need only be repeated every two years or 20,000 miles (12,000 miles for 911 GT models) for cars built after 2005 and your Porsche Centre will remind you when your service is due. Between services, however, we still recommend that you visit your Porsche Centre for an annual check.

Do Porsches use oil? To protect your engine and ensure it is firing on all cylinders, your Porsche needs frequent oil service. There are a few factors that might affect the frequency of your oil service. Your owner's manual may have a recommended oil service schedule based on the type of engine you have.

Should the idle screw be turned in or out? With the idle mixture screw removed, the tapered portion is what adjusts the volume of fuel allowed into the engine. Turning this adjustment screw clockwise (in) reduces the amount of fuel. Turning the screw counter-clockwise (out), increases the amount of fuel delivered to the engine.

What is the lean drop method? Basically it involves turning the screw in until the idle stumbles, then turning it out until you get the highest rpms at idle and then setting it somewhere in between (there are lots of variations on this theme).

How to reset carburetor? Locate the idle mixture screw and turn it clockwise until the needle lightly touches the seat. Then, turn the screw counterclockwise 1-1/2 turns. If your carburetor has a main jet adjustment screw at the base of the float bowl, turn the screw clockwise until you feel it just touch the seat inside the emulsion tube.

How much oil does a 1982 911 SC take? 9.9 quarts. . (with filter).

How much horsepower does a 1981 Porsche 911 SC have? Horsepower continually rose with subsequent model years and by 1981 the 911 SC's power output was increased to 204 horsepower through adjustments to the engine's

compression and timing.

How many quarts of oil does a 911 take?

What kind of oil does a classic 911 take? 20W-50 for 356, 914 and early 911 models When the engine is cold or warm, this oil is the best product for maintaining the classic engine, generates few deposits and offers good compatibility with the materials installed in the vehicle, such as cork gaskets or lead bearing shells.

How much horsepower does a 1982 Porsche 911 SC have? Mechanically powered by its 3.0L flat-six that produces 180 horsepower at 5,500 rpm and 175 foot-pounds torque at 4,200 rpm with a (915) 5-speed manual transmission.

What kind of oil does a 1983 Porsche 911 take? Porsche recommends the multigrade variant with a viscosity of 20W-50 for all 356, 914 and 911 models (up to 2.7 liters).

What is the mpg on a 1982 Porsche 911 SC? Based on data from 11 vehicles, 536 fuel-ups and 135,860 miles of driving, the 1982 Porsche 911 gets a combined Avg MPG of 17.79 with a 0.29 MPG margin of error. Below you can see a distribution of the fuel-ups with 6 outliers (1.11%) removed.

What does SC mean on Porsche 911? The 911 SC (Super Carrera) took the place of the 911 and Carrera models. As of MY 1984, the SC version was again replaced by the 911 Carrera.

How many Porsche 911 SC were made? Only 266 of these now-classic special cars were built. During its production run between 1978 and 1983, 911SC sales totaled nearly 59,000 units - not bad for a model that was destined for the chopping block immediately following its release.

What is the top speed of a Porsche 911 SC?

What oil is recommended for Porsche 911? For modern Porsche cars, the engine oil of choice is Mobil 1. Mobil 1 engine oil is designed to enhance the performance of your engine. This is likely the type of engine oil that will be used during your service appointment unless you have a classic Porsche.

Why is 911 oil change so expensive? One reason for that is the fact that these vehicles run on synthetic motor oil instead of conventional oil. Additionally, you will need a filter ring for a successful oil change for these vehicles. However, you should not let the price tag discourage you from driving a Porsche.

How to check oil in 1978 Porsche 911? How to Check The Oil Level. Checking the oil level in your classic Porsche 911 will require you to use the dipstick that is located under the hood. You should also make sure to turn on the car or drive it for a little bit to make sure that engine can heat up for an accurate read.

What brand oil does Porsche use? Mobil 1 - The engine oil for your Porsche.

How many quarts of oil does a Porsche 911 take? Engine Oil 7.9 quarts (with filter). After refill check oil level.

What is the best oil for air cooled Porsche? For example, for aircooled Porsche engines, 15w40 viscosities are recommended below 80F ambient air temperatures and 20w50 should be used in hotter climates above 80F.

L'effet thermique d'une transformation chimique

Question 1 : Qu'est-ce que l'effet thermique d'une transformation chimique ?

Réponse : L'effet thermique d'une transformation chimique est la variation d'énergie thermique qui accompagne une réaction chimique. Elle peut être exothermique, c'est-à-dire qu'elle libère de la chaleur, ou endothermique, c'est-à-dire qu'elle consomme de la chaleur.

Question 2 : Comment mesurer l'effet thermique d'une transformation chimique ?

Réponse : L'effet thermique peut être mesuré à l'aide d'un calorimètre. Cet appareil permet de déterminer la quantité de chaleur libérée ou absorbée par une réaction en mesurant la variation de température du milieu.

Question 3 : Quels sont les facteurs qui influencent l'effet thermique d'une transformation chimique ?

Réponse : Plusieurs facteurs peuvent influencer l'effet thermique, notamment :

- La nature des réactifs et des produits
- Les conditions de température et de pression
- La présence d'un catalyseur
- La concentration des réactifs

Question 4 : Pourquoi est-il important de connaître l'effet thermique des transformations chimiques ?

Réponse : La connaissance de l'effet thermique est cruciale pour :

- Concevoir et optimiser des processus chimiques industriels
- Prédire les risques liés à certaines réactions exothermiques (incendies, explosions)
- Déterminer les conditions optimales de réaction pour des applications spécifiques

Question 5 : Donnez un exemple d'effet thermique dans la vie quotidienne.

Réponse : La combustion est un exemple courant d'effet thermique exothermique. Lorsque du bois ou du gaz brûle, une grande quantité de chaleur est libérée, ce qui permet de chauffer les maisons et de produire de l'électricité.

The Visual Miscellaneum: A Colorful Guide to the World's Most Consequential Trivia

The Visual Miscellaneum is a visually captivating book that explores a vast array of intriguing trivia from around the world. Filled with vibrant illustrations, charts, and maps, this comprehensive guide offers a unique perspective on the most consequential facts and figures that shape our world.

What is the world's most popular color?

The answer is blue, followed by red and green.

What is the average lifespan of a human being?

Globally, the average life expectancy is around 72 years. However, this figure varies significantly across countries, with some nations exceeding 80 years while others fall below 50.

What is the most common element in the universe?

Hydrogen is the most abundant element in the universe, accounting for approximately 75% of its total mass.

What is the world's largest mammal?

The blue whale is the largest living mammal on Earth, with an average weight of up to 200 tons and a length of over 100 feet.

What is the world's smallest country?

Vatican City is the smallest country in the world, with an area of just 110 acres and a population of around 800 people.

The Visual Miscellaneum is a treasure trove of fascinating facts and figures that will captivate readers of all ages. Its engaging design and easy-to-follow format make it an ideal resource for trivia enthusiasts, students, and anyone curious about the wonders of the world.
