A Comprehensive Guide to the Acura RSX\*\*

The Acura RSX is a compact sports car that was produced by Honda between 2002 and 2006. It is a two-door, front-wheel drive coupe that was available with either a naturally aspirated 2.0-liter or a high-performance 2.0-liter VTEC engine.

### Common Issue on the Acura RSX

The most common issue on the Acura RSX is **oil consumption**. The K20 engine that is used in the RSX is known to consume oil, especially when it is driven hard. This issue can be mitigated by using a high-quality oil and by changing the oil regularly.

### Reliability

The 2004 and 2006 Acura RSX are considered to be **reliable** cars, with a good history of dependability. However, the 2002 and 2003 models are known to have some reliability issues, such as:

- Transmission problems
- Ignition coil failures
- Power steering pump failures

### Longevity

The RSX engines are known to be **long-lasting**, with many examples reaching over 200,000 miles. However, proper maintenance is essential to ensure longevity.

### Luxury Status

The RSX is not considered to be a luxury car in the traditional sense. However, it does offer some luxury features, such as leather seats, a sunroof, and a premium sound system.

### **Timing Belt or Chain**

The RSX uses a **timing chain**, which is more durable and requires less maintenance than a timing belt.

### **Discontinuation**

The RSX was discontinued in 2006 because of **slow sales**. It was replaced by the Honda Civic Si.

### **Japanese Heritage**

The RSX is a **Japanese car**, as it was manufactured by Honda in Japan.

### **VTEC**

The RSX features **VTEC**, which is a variable valve timing and lift system that improves engine performance.

### **Turbocharging**

The RSX is not a **turbocharged** car.

### **Similar Cars**

Similar cars to the Acura RSX include the Honda Civic Si, the Hyundai Tiburon, and the Mazda MX-5 Miata.

### **Value**

The value of an RSX depends on the year, mileage, and condition of the car. However, they typically sell for between **\$5,000 and \$15,000**.

### **Sports Car**

The RSX is considered to be a **sports car** due to its performance and handling characteristics.

### Top Speed

The top speed of the Acura RSX is approximately **130 mph**.

### Engine

The RSX comes with a 2.0-liter K20 engine that produces either **160 horsepower** (naturally aspirated) or **200 horsepower** (VTEC).

### Discontinuation Reason

The RSX was discontinued because of **slow sales**. The Civic Si, which was introduced in 2006, cannibalized the RSX's sales.

### Race Car

The RSX is not a purpose-built **race car**. However, it is a popular choice for track days and amateur racing.

### Real-Life Inspirations

The RSX is based on the **Honda Integra Type R**, a high-performance sports car that was sold in Japan.

### Overheating

One common problem with the RSX is **overheating**. This can be caused by a number of factors, such as a faulty thermostat or a clogged radiator.
